HAM YIELDS AS FRANCO-AMERICANS GAIN

BRITISH WIN MANY TOWNS IN FLANDERS AND PICARDY

Water Consumption Curbed, But Supply Not Increased, Is Revelation of Records

POPULATION INCREASE IS NOT UPHELD BY SUPPLY

In Previous Years After the Meters Were Installed Use of Water Falls Off and Consumption Lower As Result

FIGURES' SIGNIFICANCE IS SHOWN IN REPORTS

Development for the Growing Needs Met by Boring Wells That Failed to Meet With the Demand of Residents

By HARRY D. SULLIVAN

In 1909 the late William Dingee, who was for many years the dominant figure in the water situation in Alameda county, made a report to the Oakland city council to aid the councilmen in fixing rates for water that would unobtrusively return an adequate revenue to the city.

It should throw an interesting light upon the present water situation to go back over the history of the development of the water supply to see what has been done by the present company and its predecessors in intelligent planning and development and to examine, especially for the period of the past ten years, how the demand has been anticipated by the supply.

Some figures will have to be used to illustrate the story, but these will be made a few and as significant as possible.

PEOPLES COMPANY TOOK OVER HOLDINGS.

The immediate predecessor of the East Bay Water Company was the Peoples Water Company, incorporated August 30, 1905. This company took over, in January, 1907, all the holdings and properties of the old Costa Water Company.

In 1907, according to reports filed by the water company with the State Railroad Commission, the average consumption of water supplied by the Peoples Water Company to the Eastbay communities was 18,450,000 gallons a day, or an average per capita consumption of 109.1 gallons a day.

Plenty of Planes Now in France to Protect U. S. Boys

(By Associated Press)

WASHINGTON, Sept. 6.—Confidential message from General Pershing and other reports from France indicate that the American army now is supplied with sufficient airplanes of all kinds to protect its men in battle.

General March, chief of staff, gave this information to members of the House military committee today at their weekly conference at the war department.

Transportation of United States troops in France has been highly organized by Colonel Samuel M. Felton, who has returned home and reported that the situation is eminently satisfactory, General March told the committee.

ERROR IN VOTE COUNTING MAY CHANGE RESULT

Possibilities of material changes in the unofficial election returns are developing as the canvass proceeds.

Glaring incompetencies of the unofficial returns in possibly forty precincts will increase the official count of votes for the non-partisan candidates by over 2000, with the possibility of sufficient changes to upset the unofficial results in cases where contests are close.

It is possible that, for instance, the official canvass will show sufficient gain to elect J. A. Hill public administrator, and in the close contest between Judge Kinsey and Lin S. Church the result may be material. It may also have a bearing on who will qualify as majority candidate in the judicial fight.

The situation is difficult of explanation by reason of the complicated voting and counting system. All county, school and judicial candidates were under the law, non-partisan candidates and their names were printed under the non-partisan heading on all ballots, and only there. In the tally sheets in which the election board in the precinct made up the totals the names of the non-partisan candidates were printed under the non-partisan designation only.

Every vote cast for a non-partisan candidate, whether by a Republican, Democratic, or whatever partisan, should have been tallied in the non-partisan column. But instead of doing that, in the forty precincts in question, when they came to counting the votes, they wrote the name of the candidate in the tally sheet under the different party designations and counted him as a partisan candidate.

Then when they came to make up totals on the unofficial returns sheet, the names of the non-partisan candidates were printed under the non-partisan column only, with no place to write the names in as partisan candidates. In the forty precincts in question the total votes recorded for the non-partisan candidates were only those cast by

U.S. Transport Torpedoed but Reaches Port

WASHINGTON, Sept. 6.—The United States troop transport Mt. Vernon has been torpedoed, but has reached port safely.

Box score and play by innings will be found on Page 14.

RECORD IS LOWERED IN OUTPUT OF AIR MOTORS

Country's Production of Liberty Engines During Past Week Is More Than 800, Breaking All the Records

RESULT BEYOND ALL ALLIES CAN PRODUCE

Congress Is Assured by Gen. March That U. S. Need Not Worry Over Aircraft That Are Needed to Combat Huns

WASHINGTON, Sept. 6.—The country's output of Liberty motors—more than 800—during the past week, broke all previous records, the House military affairs committee was informed by General March, chief of staff, today.

The committee, at its weekly conference with General March at the war department, was also informed that the United States turned out more Liberty motors in this period than all of its allies combined could produce of the same type of motor.

"Judging by what we are told, we can go to sleep and rest contentedly on the proposition that by Christmas our aircraft production will be more than keeping pace with our war demands," Representative Caldwell of New York, a Democratic member of the committee, said following the conference.

Demands of the American army in France for gas shells and gas masks are being met by our own resources, Major General Sibert of the chemical warfare board announced today, despite complete lack of facilities at the outbreak of the war.

Mustard gas and deadly phosphorus are being sent overseas in quantity for the use of our troops against the enemy, Major General Sibert, chief of the chemical warfare service, announced this afternoon.

General Sibert said that the troops who will handle the gases have been equipped with masks and protective suits that will insure their own safety from the deadly appliances that they will direct against the Germans.

Diver Sinks U.S. Steamer; Five Missing

WASHINGTON, Sept. 6.—Five members of the civilian crew of the American steamer Lake Owens are missing, following the sinking of the vessel by shellfire from a German submarine on September 3, the navy department announced today.

All of the members of the naval armed guard aboard the vessel were saved.

The navy department is informed that the Lake Owens was sunk by gunfire in foreign waters on the morning of September 3, said an official statement. "All the members of the armed naval guard were saved, only one, Chief Boatswain's Mate H. W. Lincoln, being reported in a hospital and his injuries are not serious," it is added. "Five of the ship's crew are reported missing. All other members of the crew have been landed, six seriously wounded and six slightly injured."

The Lake Owens was an army cargo ship of 2038 gross tons.

4000 Hun Aircraft Downed by British

LONDON, Sept. 6.—The British, during the year ending June 30 last, brought down considerably over 4000 German aircraft, while British machines missing have only slightly exceeded 1000, it is officially announced.

Sugar Restriction Will Be Continued

WASHINGTON, Sept. 5.—Retention of the present sugar ration of two pounds a month for each person was announced by the food administration today.

Along 150-Mile Front Foe Yields to Ally Pressure

(By Associated Press)

Continuing their pressure along the front from Rheims to Ypres, the allied forces are pushing back the Germans on virtually this entire 150-mile line.

Telling progress has been made in particular by the French and Americans along the southern part of the front. The French are before the old Hindenburg positions along a considerable stretch in this sector, where they are closing in upon the bastion of St. Gobain, the keystone of the German defensive system in the west.

Farther north the enemy armies are still in retreat before the French and British, who are capturing town after town as they make rapid strides toward the line from which the Germans attacked in their offensive of last March. Ham is almost within the allied grasp and Chauny is seriously threatened. The Americans have moved up along the Aisne line, reaching the ground immediately south of the river.

I. W. W. LEADER IDENTIFIED AS BOMB PLANTER

CHICAGO, Sept. 6.—Michael F. Sullivan, assistant state's attorney, today declared that John W. Wilson, arrested last night, had been positively identified as having been implicated in the planting of the bomb in the Chicago Federal building.

The explosion of the bomb killed four persons and resulted in serious injury to a score of others.

John W. ("Shorty") Wilson, a leader of the I. W. W., and Mrs. Minnie Wymann, sister of William D. Haywood, convicted leader of the I. W. W., were taken into custody in a raid made on a West Side house.

Wilson is a member of the I. W. W., and is believed at one time to have been private secretary to William D. Haywood, general secretary-treasurer.

In his announcement, Sullivan said Wilson had been identified by four persons as the man seen running away from the Adams-street entrance of the Federal building shortly before the bomb exploded. He was described as "the man with a black fedora hat who ran out of the building, leaped into a black automobile and was whirled away."

Detectors who question Wilson said he admitted he was employed as a bookkeeper by the I. W. W., and that he spent the greater part of Wednesday in the Federal building, whither he went, he said, to arrange for the transfer of Haywood to the office of the federal procurator in New York. Haywood might attend to some private business affairs.

He denied any connection with the explosion.

Dynamite in Cache Found; Near I. W. W.

SACRAMENTO, Sept. 6.—Forty pounds of dynamite was found today by the police. It was concealed under a pile of roofing paper back of a storehouse a short distance from the former headquarters of the Industrial Workers of the World, which were closed last December by police and government officials, the police said. Approximately ten pounds of the explosive had been removed from the box, the police said.

Soldier Saved by Wilson's Ruling

WASHINGTON, Sept. 6.—President Wilson's intervention has saved the life of another soldier. It became known today.

Private William A. Kerner, Company G, 366th Infantry, was sentenced to death by two-thirds of the court-martial at Camp Upton, New York, for willful disobedience of orders.

President Wilson held that the appointment of the assistant judge advocate was illegal and ordered that the man be restored to duty.

U.S. TROOPS TAKE TOWNS IN ADVANCE ALONG AISNE

Main Line of Americans in Pursuit of Enemy Nearing the Canal Beyond Dhuisel, Longueval, Revillon North

PERSHING'S FORCES MAY TAKE BIG GUNS

Allies Progress Toward Sector Where Long Range Cannon That Bombed Paris Was Located in St. Gobain Forest

By FRED S. FERGUSON, United Press Staff Correspondent.

WITH THE AMERICANS ON THE AISNE, Sept. 6.—More than half a dozen villages between the Vesle and the Aisne are now in American hands. Our troops are following up the German withdrawal.

The main American line today was approaching the canal beyond Dhuisel, Longueval and Revillon and thence moving up in a northeasterly direction.

(East of Villers-en-Prayeres the allies have not reached the Aisne. This movement is toward the stream and is in accordance with reports that the Americans were approaching the river at new points.)

Germans are reported holding portions of the canal in considerable rear-guard strength and sharp fighting is in prospect at these places, where the enemy is expected to exert a desperate effort to slow up the allied pursuits.

TENTH ARMY GAINS NORTH OF SOISSONS

Continued progress of the French tenth army north of Soissons and liberation of Coucy forest is likely to have a marked effect on German plans to make a permanent stand north of the Aisne.

The American right, which has not yet reached the river, continues to meet opposition only from machine gun squads, aside from the usual shell fire.

By HENRY G. WALES, International News Service Staff Correspondent.

WITH THE AMERICAN ARMY ON THE AISNE, Sept. 6.—The cornerstones of the Hindenburg line southwest of Laon have been breached by General Mangin's Franco-American army. In that sector the allies are now progressing toward the emplacement of the original "Big Bertha" which shelled Paris. This long-range German gun was located in the sector of Croy-en-Launois on the eastern fringe of the St. Gobain forest.

French and American troops have now reached the Aisne as far as Villers-Arcy, about thirteen miles east of Soissons. (Villers-Arcy is on the southern bank of the Aisne, on the Rheims-Soissons railway.)

AMERICANS SWEEP ACROSS AISNE PLATEAU

Closely following up the retreating Germans on the Aisne front, the Americans swept across the plateau immediately south of that stream this morning, establishing themselves along the ravine leading to the river.

All of those valleys had been drenched by the Germans with gas as they retired. Air observers reported that patrols had established themselves on the southern bank of the Aisne canal.

On the American right flank the German troops of the crown prince have been resisting the Franco-American advance with great bitterness, in an attempt to delay the advance of the allied forces and expedite the German retreat.

GERMANS REVERSE TO CHEMIN-DES-DAMES

The Germans fell back in a northeasterly direction but were handicapped by the scarcity of roads. General Mangin's army went forward in a northeasterly direction from Missy-sur-Aisne, rolling up the German flank, fires and explosions were observed between Conde-sur-Aisne and Aizy, indicating that the Germans were retreating all the way to the Chemin-des-Dames.

Conde and Aizy are both north of the Aisne river, on the high ground to which the Germans fell back following their decisive defeat at the Marne in 1914. Afterwards the Germans were compelled by the pressure of the French to retreat to the north of this chain of heights and it was from their positions north of the Chemin-des-Dames that the Huns began their offensive toward the Marne in May.)

ALLIED LEGIONS ARE DRIVING STEADILY NEARER ST. QUENTIN

WITH THE FRENCH ARMY IN FRANCE, Sept. 6.—(By the Associated Press)—French cavalry this morning passed through the town of Chauny, from which the enemy had fled. The troopers are advancing toward Tergnier, 4½ miles northeast of Chauny, and have reached the region of Viery-Noreuil, 2½ miles from Tergnier.

General Debeney's army has turned the Ham-Guiscard line at Dampcourt, west of Coucy. The Germans are retreating rapidly all along the front south of the Somme.

PARIS, Sept. 6, 3:50 p. m.—The allied lines are now so close to the southern end of the Hindenburg line that the heavy guns can bombard Laon and La Fere.

(Laon and La Fere are the two chief pillars on which the southern end of the Hindenburg line rests.)

By JOHN DE GANDT, United Press Staff Correspondent

PARIS, Sept. 6, 3:50 p. m.—The right of General Humbert's army operating against St. Quentin, Ham and La Fere has nearly reached Chauny, which is being encompassed from the north by an outflanking movement toward St. Simon. (St. Simon is a mile, and a half east of Ham.)

General Mangin's men today still further lessened the value of the Chemin Des Dames positions, that the Germans are endeavoring to hold, by accentuating their tenacious infiltration of the defiles in the grove opposite Laon. American divisions are bordering on the south bank of the Aisne.

Encircled from the northwest, southwest and from the south, the important junction point of Ham, on the road to St. Quentin, is virtually taken, according to battle front advices. (Ham is in the southern part of Picardy, twelve miles north of Noyon.)

General Mangin's troops are now in sight of Laon, having reached positions within ten miles of that city. General Borthet's soldiers have reached the Aisne on a large front.

North of the Oise, French advance detachments are reported reaching Chauny.

(Chauny is three miles from the French line as it stood in this region when last officially fixed. Toward Chauny an advance would threaten La Fere.)

To the northeast of Soissons the allies are near Sancy and Lauffaux. (Lauffaux is three miles east of Terney Sorny, where the allied line recently stood. Allied advance eastward in this region went out in above the new German positions on the Aisne.)

The French and Americans have reached the Aisne on a front of more than ten miles. The French night official statements said the allies had reached the Aisne between Conde and Villers-Arcy, and that they were now miles from east of Soissons to a point slightly northwest of Fismes.

AMERICANS FORGE FORWARD ON AISNE

The Aisne-Vesle battlefield the Americans have carried their lines up to the outskirts of Villers-en-Prayeres (on the southern bank of the Aisne, fifteen miles east of Soissons), the French war office announced today.

Americans on the Revillon slope. (Glennes is about eighteen miles east of Soissons and lies just south of Villers-Arcy. The French command showed that the Americans are widening the front of their operations north of the Vesle and that the Germans are retreating to the east of their line of retreat on Wednesday.)

The French have advanced closer to Ham and at several points the Ham-Peronne road has been reached.

More villages have been taken by the French, including Plessis-Patte-d'Oise and Berlandcourt. At both places the French advanced beyond the village. The French advance continues over a front of great width, notably north of the Somme and north of the Vesle.

FRENCH BREAKING THROUGH ON ALLETTE

In the Somme region the French are breaking through. Fresh progress has been made north of the Allette river, also, the French war office announced today.

(Continued on Page 2, Col. 4)

DRIVING ON LILLE, HAIG WINS NEUVE CHAPELLE

Canal du Nord On the Entire Front Except From Havrincourt Northward Is Held by British After New Smashes

MUNITION STORES OF ENEMY LIGHTING SKY

North of Peronne and Northwest of Armentieres Gains Made by Allies, Who Continue Toward Belgian Line

By ASSOCIATED PRESS, LEAD WIRE TO TRIBUNE.

LONDON, Sept. 6, 1 p. m.—British troops today captured Neuve Chapelle and Bussy.

Field Marshal Haig's forces crossed the Canal du Nord on the whole front except from Havrincourt north to the Scarpe.

Between the Somme and the Oise French troops have captured the block of hills known as the Outre-croix massif, which is within three miles of Chauny.

The French have secured a good hold on the northern bank of the Allette and on the terrain between that river and the Oise. They are approaching, if they are not actually on, the Hindenburg line at St. Gobain Massif.

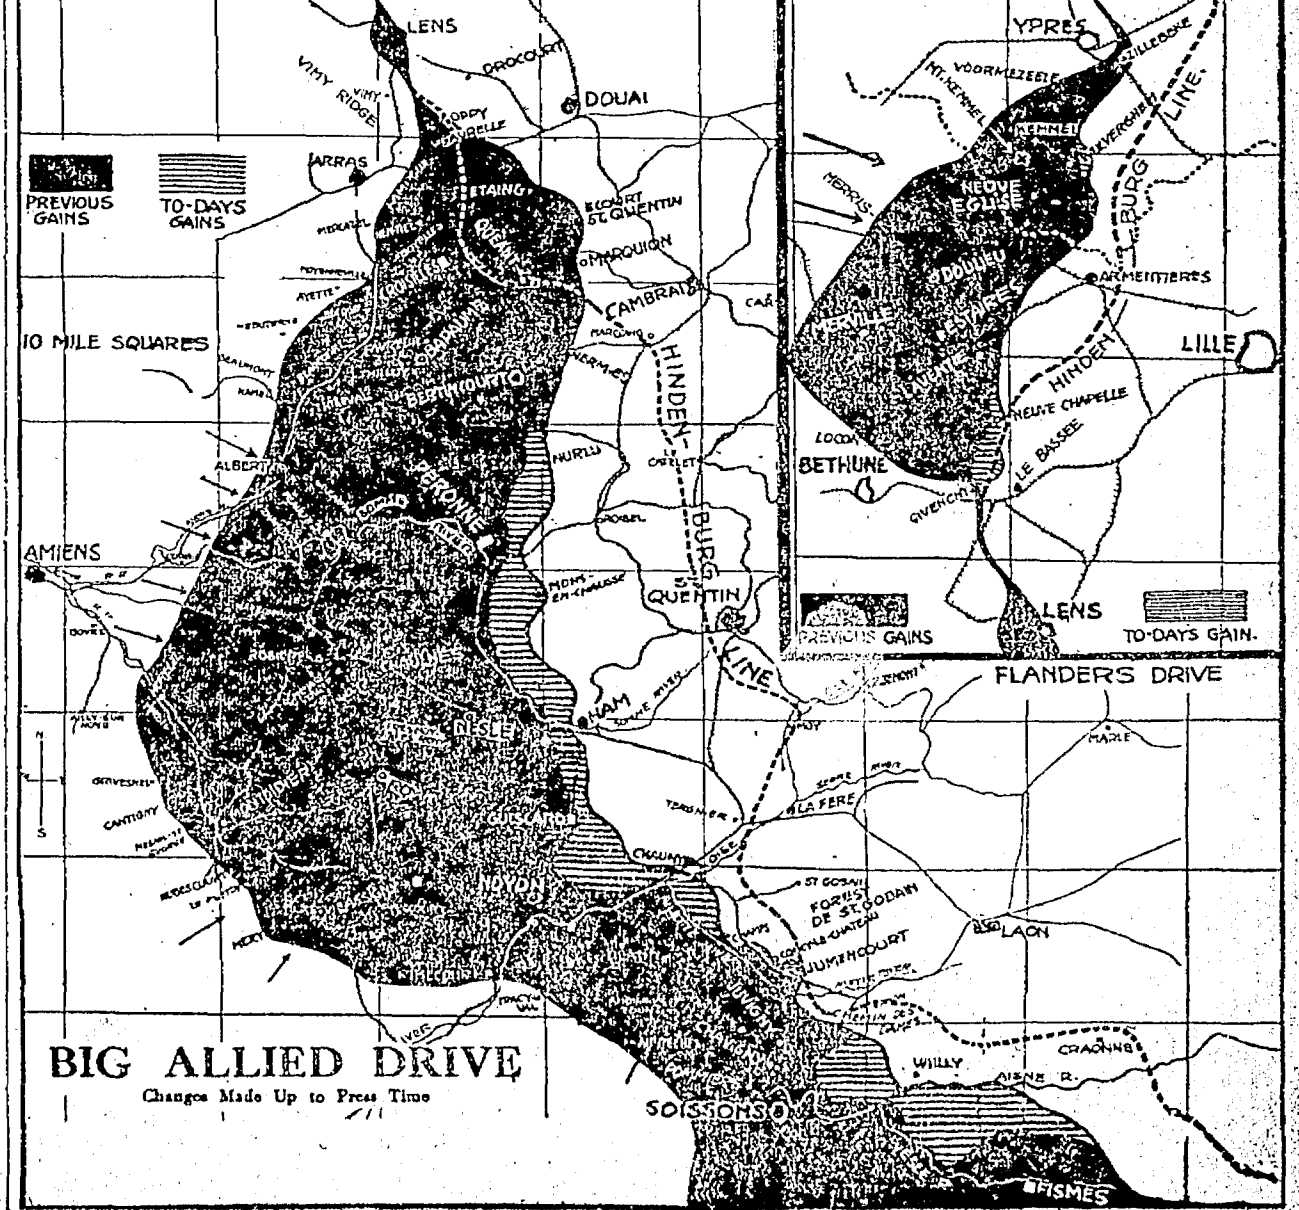

Advancing east of the river Somme to the south of Peronne the British have captured the villages of St. Christ-Briest and Le Mesnil-Brutel. Field Marshal Haig reported in his official statement today. A number of prisoners were taken by the advancing troops.

FOUR TITEN CHIES NOV POUL NIRE ON FOE

On the Flanders front the British are established in portions of the old German front line east of Neuve Chapelle and in the old British line in the Fauquissart sector.

The British also have advanced northwest of Armentieres. North of Peronne British forces are in possession of the town of Bussy and are in the immediate vicinity of Templeux-La Fosse, Nurlu and Equinecourt.

Southwest of Peronne the British have reached Athies and Mons-en-Chaussel. They have captured the village of Dolmet.

ENEMY FLEES TO OLD LINE OF DEFENSE

WITH THE AMERICANS ON THE AISNE, Sept. 6.—Indications are that the German retreat, possibly will be beyond the Chemin-des-Dames to the Hindenburg line. In addition to advancing to the Aisne, the allies are moving in a northerly direction, facing the possibility of another movement to crowd the Boche off the plateau to the east from which German observation posts overlook the higher ground between the Vesle and the Aisne. From this point of vantage, Bousieux, Bancy and other towns now behind the allied lines are clearly visible to enemy observers.

Bousieux was being shelled today. Support troops were visible moving up to the main battle line along the plateau's northern slopes, which dip down to the Aisne.

Along the ridge of the plateau shells broke intermittently, but the quietness of the Vesle valley was not marred by the noise from the fighting. Light traffic was to be seen on the roads north of the Vesle. South of the stream, however, the roads were moving up rapidly over roads which were screened.

Water Consumption Was Curbed Service, Not Supply, Increased

(Continued From Page 1)

330,000, and the following year, when the system was more completely metered, the consumption had dropped to 15,230,000 gallons per day, despite the fact that the number of services and the population were on the steady increase.

The significance of these figures is apparent. During the entire period of ownership and control by the Peoples Water Company the development of new sources of supply, the wise planning for the future to meet growing demands, consisted entirely in a reduction of the per capita consumption of water through the metering of the service and the fixing of rates that would operate toward this end.

It is only fair to let the experts of the water company tell what was done by this particular company during the period of its existence. In the testimony of Chief Engineer George H. Wilhelm before the State Railroad Commission, in which the company was seeking to show every fact that would entitle it to consideration in the establishment of rates, he gave this statement of what had been accomplished by the Peoples Water Company:

"This company increased the development of ground water supplies at Alvarado, bored wells and installed a pumping station on property owned by it west of the town of San Pablo, which is known as San Pablo No. 2 pumping station."

This was his record of new development to meet growing needs.

The amount of the increase in the Alvarado supply is not given, but the tabular record filed with the Railroad Commission does not indicate that it would have greatly improved the case by giving exact details. San Pablo No. 2 developed approximately half a million gallons to be added to the supply.

In 1907, Arthur L. Adams, who had been chief engineer of the company for many years, had several times reported that the supply was below the safe margin, and had prepared an elaborate plan of developing the surface drainage supplies of the Upper San Leandro, the Bolinger, Crow and Cull creeks supplies, which would have developed several million gallons more water a day, and the San Pablo and Wildcat supply, about which controversy has since been raging. Adams held that from the supplies which then existed, there was consumption was approximately 17,700,000 gallons a day. His projects for the Upper San Leandro, Bolinger, Crow and Cull, which could have been carried out at considerably less cost than that at San Pablo, under way, have never been carried forward.

NUMBER OF PATRONS IS ALMOST DOUBLED

During the period under discussion, the population of the territory served by this company, as estimated by the company experts, increased from 109,175 in 1907 to 223,955 in 1915, an increase of 114,780. In the same period the number of services increased from 32,835 to 64,611, or not far from double the number. But the amount of water drawn from the various sources of supply actually decreased in a comparison of the years 1907 and 1915 by approximately 500,000 gallons a day.

It would be unfair to leave the conclusion that no money was expended in the development of the plant in this period by the Peoples Water Company. In the testimony by Wilhelm, quoted above, his statement was ended at the point where he had detailed in the new supplies of water developed. He concluded his statement as follows:

"The Peoples Water Company constructed the central reservoir of 160,000,000 gallons capacity, the Twenty-fourth avenue pumping station of 24,000,000 gallons capacity, the Rose street pumping station of 2,000,000 gallons capacity, the Diamond pumping station of 5,000,000 gallons capacity; installed some 380 miles of pipe, installed 30,800 taps (services), and about 47,000 meters."

This was service development, not increase in supply. The development of increased supply to meet the present emergency will be told in a succeeding article, in which it will be shown how the Eastbay Water Company has been able to supply the deficiency caused by the two years of light rainfall, and the increased demand from water industries, by adding to its own supply a total of close to five million gallons a day.

THREE GREAT ARMIES FLEE FROM FRANCE

(Continued From Page 1)

French reaching the border of the Vosges. The text of the communiqué reads: "During the night we pursued our advance on the whole front north of the Somme and the Vesle."

"Our troops continue to break through in the Somme region, in the Epeneau sector and further south at several points have pushed up to the Ham-Peronne road."

(At points where the Ham-Peronne road was reached the French have advanced between two and three miles from the Somme canal, the crossing of which was reported by the French war office yesterday.)

"Plessis-Patte-d'Oie and Berlandcourt have been occupied. The French have advanced beyond Guivry, Cailleur, Crepin and Abbeville."

(These towns are in the district between Ham and the Oise river.)

"North of the Ailette river we have advanced to the outskirts of Sinceny."

"South of the Ailette we have pushed on to the border of the ravine of Vauxlaillon."

"On the Vesle front American troops carried their lines up to the outskirts of Villers-en-Prayeres."

"On the slope of Revin they have occupied Glennes."

PARIS ON SEPTEMBER 6

FOR NEWS OF VICTORY

Advance of General Mangin's Franco-American army on the Aisne is already putting the left end of the Hindenburg line under strong pressure.

The British have smashed the right end.

All Paris is breathless, expecting the most important developments. Numbers of American wounded are now arriving at Paris hospitals.

They say that some of the German machine gunners took flight and ran when attacked, but that others stood up and gave battle.

There is high praise for the American engineers who constructed bridges over the Vesle while under heavy shell fire.

WITH THE BRITISH ARMIES IN FRANCE, Sept. 6, noon. (By the Associated Press.)

The British have captured more posts around Havincourt wood.

In many places north of the Senisee river the Germans are firing thousands of gas shells indiscriminately.

The Germans launched three counter-attacks against Hill 63 in the Lys salient. Two were repulsed and once the British fell back to the north of the hill for a moment. Further north the British have reached the crest of the important ridge northeast of Wulverghem.

West of La Bassée, the British have reached Cantelux and are pushing toward Violaines. Many fires are raging and explosions are occurring over the whole area from which the Germans are retreating.

By LOWELL MELLETT, United Press Staff Correspondent.

WITH THE BRITISH ARMIES IN FRANCE, Sept. 6, 3 p. m.—Clouds of smoke and flaming fires from burning villages caused by exploding ammunition dumps all through Picardy between the Canal du Nord and the Hindenburg line today indicated the Germans were again moving backward.

A marked decrease in enemy shellings made it apparent that the Germans realize it is necessary to retreat. Possibly they are already withdrawing for a stand behind the Hindenburg line.

WAR TO END SOON, HINTS HINDENBERG

GENEVA, Sept. 6.—German Imperial Chancellor Hertling has handed his resignation to the Kaiser on plea of ill health, according to reports from Munich, Zurich. It is not known whether the resignation was accepted.

AMSTERDAM, Sept. 6.—"The decisive battle for the Central Powers is now progressing, and we are standing shoulder to shoulder in our defense," General von Hindenburg declared in his contribution to bolster up the morale of un- settled Germany, which is published in a Vienna paper.

"It is true we are suffering grievously," von Hindenburg admits, "but we shall emerge stronger from it. We will turn home after the glorious battle to assured peace- labor and then pick the fruits of our fight."

"Persevere is the watchword and if we observe it, we may look serenely to the future."

WARNERS OF AIR BOMBING.

GENEVA, Sept. 6.—Field Marshal von Hindenburg, the German

Niji-Novgorod Is Reached in Czech March

ZURICH, Sept. 6.—Czech-Slovak troops have arrived at the gates of Niji-Novgorod, according to advices from Moscow.

Niji-Novgorod is sixty-five miles northeast of Moscow, on the right bank of the Volga river.

WASHINGTON, Sept. 6.—The Americans, Belgians and Italians who are fleeing Russia have recently reached Rihimaki and are due in Helsinki tomorrow, according to a despatch received by the state department today from Consul Haynes at the latter place. Mr. Haynes reports that all on board the special train are "happy and well provided for." The Finnish authorities have shown them every courtesy.

chief of staff, has again been forced to appeal to the German people not to become alarmed over the continuous defeats the Germans are sustaining on the western battlefield, said a despatch from Berlin today. The telegram quoted Hindenburg as saying:

"We have conquered in the east and we are strong in the west, despite the appearance of American troops. But it is necessary to remain strong and unite in the rear and we must be prepared to face such air bombing."

Italians Defeat Austrian Forces

ROME, Sept. 6.—North of Conca- light and in the Asa valley Italian troops engaged and drove back enemy parties, the Italian war office announced today.

Enemy scouts attempting to cross the lower Piave were driven back by Italian patrols. A raid on advanced lines north of Montefenera was halted by a counter-attack.

House Launches Into Giant Revenue Bill

WASHINGTON, Sept. 6.—The House began today the consideration of the greatest revenue bill ever presented to the American Congress. Three months in the making and carrying a total of \$8,000,000,000, it was offered by Chairman Kitchin of the ways and means committee as providing the speediest method of yielding funds for successful prosecution of the war.

The Senate finance committee at the same time began hearings.

Steamer Ashore On Atlantic Coast

BULLETIN.

AN ATLANTIC PORT, Sept. 6.—A passenger steamship is on the shoals of Brigantine Beach, according to advices received here this afternoon. All of the passengers have been safely removed to another vessel and are enroute for another Atlantic port. Coast guards from this port are standing by the vessel on the shoals.

was offered by Chairman Kitchin of the ways and means committee as providing the speediest method of yielding funds for successful prosecution of the war.

The Senate finance committee at the same time began hearings.

Stefansson Plans Diver Trip to Pole

DAWSON, Y. T., Sept. 6.—Use of a submarine rather than an airplane is the best way to reach the North Pole, according to Vilhjalmur Stefansson, noted Arctic explorer, who is on his way today to Esquimaux, B. C., to report to the Canadian government on his five-year expedition in the north.

The explorer says water from half a mile to a mile deep can be found in Arctic waters through which a submarine could easily be operated.

It won't itch now, dear Resinol

will help to make it well and relieve the smart and pain.

Do not neglect a spot of eczema, rash, or other itching, burning eruptions and sores, because children's skins are easily irritated, and if the hurt is neglected, obstinate trouble may persist in later life.

Resinol Ointment and Resinol Soap were originated by a doctor and have been used by doctors for many years. All dealers sell them.

Bloomered Women Doing Work of Men

ALAMEDA, Sept. 6.—Women of Oregon and Washington are serving in large numbers as hoisting engineers in the northern woods and at the loading stations of transportation and lumber companies. The women are proving expert at the business, says Ralph Wendland, who is back from a visit to his brother, Grover Wendland, now in military service and in the spruce timber production work.

They not only wear overalls but wear hooded or knee length overalls, cut with due regard to the economical use of denim cloth, and also to eliminate the added danger of the clothing of the feminine engineers catching in the engines or cables. The knee pants of the northern women workers closely resemble the shortened and skimpy costume of Whittier's barefoot boy.

Soldier Killed by Airplane Propeller

FORT WORTH, Texas, Sept. 6.—Private Lee C. Gillespie, of Tulsa, Okla., was instantly killed while cranking the propeller of a plane at Tallaferro Field.

OSGOODS

POETS, RHYME RIVETERS, ALL WAR WORKERS!

"I love to converse with a new cottage cheese
In affectionate accents, and low;
For being a cheese is a sort of
disco."
Like being a poet, you know?"
(Note—The man who wrote this
is engaged in an essential occupation.)

There's joy among the poets who
sequestered at Carmel-by-the-Sea,
or read thrilling verse in Oak-
land's cultured drawing-rooms.
Sadakichi Hartmann, recently told
to work or fight, met now yield
no tool mightier than the pen un-
less he writes just the plain truth
with no poetry to it.

Harry Lauder, Oakland poet and
advertising expert, need not de-
sert his trusty typewriter for the
shipyard. George Sterling, Cal-
ifornia poet and author of the
"Testimony of the Stars," George
Lowe and Charles Keeler, Berkeley
makers of verse, need not dig pota-
toes in lieu of glittering metaphor,
nor need George Bowles, Cham-
ber of Commerce publicity man,
start laying railroad tracks when
his broken arm gets well.

For Provost Marshal Sadakichi Har-
tman, Clyde Westover (novel
scenarios are fiction), Edward
Hurlburt of Alameda, all come un-
der the new order. Of local ad-
vertising writers there are Ray New-
son, Harry Lauder, Alex Schmitt,
Atlee F. Hunt, T. A. Sexton, and a
score of denominated store and
theater advertising managers and
copy writers.

"Personally, I don't want any ex-
emption for writing poetry; I do it
for pleasure," said Mr. Lauder. "I
think the draft board ought to go over
the poems and decide which are
poetry before they exempt some of
these authors."

Again the pen is mightier than
the sword—so long as it writes fic-
tion, such as "Simple Susan's Sim-
plings," Chamber of Commerce
publicity, or "Why Girls Leave
Home." Then anything from "The
Purple Cow" to the "Thapana-
tonis" is poetry—just so long as
it's verse and you get money for it.
Many local poets and writers are

Missing Knothole Wins Case Sunnyside Suit Is Dismissed

"The witchery of Sunnyside, or how
did the knot hole get out of the board-
is an appropriate title for a movie based
upon the acid-throwing controversy be-
tween Mrs. Eugenio Chaumette and
Mrs. Mario Osterberg of Ninety-fourth
avenue and Sunnyside street, that has
been the subject of two criminal and
two civil suits during the past three
years.

Mrs. Chaumette has finally won out
entirely. Judge J. O. Moncur, in the
Alameda county Superior Court, hav-
ing vacated her part of the alleged ac-
tion, and reversed the judgment
giving Mrs. Osterberg \$1800 in dam-
ages for alleged burns on her arm, and
the entire case turned upon the knot
hole that was supposed to be in a
board in the back fence. It was
through this knot hole that Mrs. Os-
terberg claimed Mrs. Chaumette threw
acid.

Judge Moncur, at the conclu-
sion of the fourth contest, decided that
there wasn't any knot hole, and that
the entire fabric that rested there-
upon tumbled.

It was in April, 1916. The two
women were neighbors, their back
fences adjoining and over this fence
they used to talk the idle hours away.
Mrs. Chaumette decided to build a
little house of shed against her side
of the fence. At the same time Mrs.
Osterberg began to saw the top of the
board off, reducing the height of the
fence about two feet.

IS ACQUITTED. Trouble developed and one day Mrs.
Osterberg went to the prosecuting at-
torney and complained that Mrs. Os-
terberg had thrown acid upon her.

freed from the possibility of work
in shipyards, farms or other essen-
tial work by the order. George
Keeler, George Lowe, Harry Lauder,
George Sterling, Sadakichi Har-
tman, Clyde Westover (novel
scenarios are fiction), Edward
Hurlburt of Alameda, all come un-
der the new order. Of local ad-
vertising writers there are Ray New-
son, Harry Lauder, Alex Schmitt,
Atlee F. Hunt, T. A. Sexton, and a
score of denominated store and
theater advertising managers and
copy writers.

"Personally, I don't want any ex-
emption for writing poetry; I do it
for pleasure," said Mr. Lauder. "I
think the draft board ought to go over
the poems and decide which are
poetry before they exempt some of
these authors."

At the end of August, General Crow-
der has announced, 60,000 men have
been inducted into the national service.
By October 1 the available class 1 ma-
terial would have been exhausted, and
for this reason short cuts in handling
the new registration are necessary.

Hence every volunteer to help register
Oakland's men on September 12 will
be a direct and important help to Uncle
Sam's basic.

Heavy work confronts the local draft
boards in tabulating and classifying the
thousands to be registered. The office
of the provost marshal is doing the
crush of work, and expect to cope
successfully and speedily with it.

Every man between 18 and 45—or,
in other words, who has reached his
majority, but has not yet reached his
46th birthday—must register, at the
polling place of the precinct in
which he lives, whether a foreigner
or citizen. Failure to do so means one
year in jail and forcible registration
under the law. Every facility will be
offered all registrants.

The local draft boards are still being
beasted by men desiring to register
early. If such men are to be out
of town and near no other draft board,
they are being registered; otherwise
they are being registered to visit the
board near where they will be, and have
their cards forwarded by mail to the
proper Oakland board.

A group of 113 of selected men,
113 in number, are now in Camp Kear-
ney. The men enlisted yesterday from
fourteenth and Franklin streets, es-
corted by a detail of police headed by
Captain E. J. Lynch. The men were
from various boards to fill extra calls.
Fifteen were from Board No. 1, twelve
from No. 2, seventeen from No. 3, nine
from No. 4 and twenty-six from No.
5 and No. 6 each. A few men were
also sent from District No. 7 in
Fruitvale.

MAMMA-IN-LAW MUST HAVE HAD SOME WALLOP

His mother-in-law hit him, but
why the tears?
That is the question they are pro-
pounding to each other around the
court house.

It was like this. Fidelis Fernan-
dez listened to his wife lambast him
as she testified in a divorce suit
plaintiff in a divorce suit against
him. Every one thought he was
weeping for his remorse, or for his
grief that the life he loved so well
that he could bear her, was trying to
leave him in the lurch.

After it was all over they asked
why he wept.

"My mother-in-law beat me," he
replied.

Surprised, and not remembering
any excitement in the court room,
they asked him when all this hap-
pened.

"Last Saturday," he whispered.
It must have been some beating!

LAST OF FUND FOR CONVENTION

Final appropriation from the city's
entertainment fund for the present fiscal
year was made by the city council
today when it was announced by Com-
missioner Edwards, that the fund has
been depleted. Commissioner Jackson
introduced a resolution to the effect that
the council goes on record that no fur-
ther transfers will be made from other
funds into the entertainment fund this
year. The sum of \$500 which remained,
was appropriated toward defraying the
expenses of the National Traffic Offi-
cers' convention which meets here the
end of this month.

"It is necessary that all departments
curb their outlays and I believe that
the council should go on record as op-
posed to any further disbursements
through the entertainment fund," said
Commissioner Jackson.

"I hope that the council will stand
firm on that resolve," said Commis-
sioner Edwards.

If the council adheres strictly to the
resolution it will hereafter be futile for
any organization to seek aid from the
city for any convention or similar pur-
pose during the remainder of this fiscal
year. It may be, however, that the
city will receive a large sum of its \$5000
appropriation to the Land Show and it
is possible that the sum, whatever it
may be, may be placed in the entertain-
ment fund notwithstanding.

**Y. M. C. A. Auxiliary
Open to Relatives**

War Workers' Auxiliary of the Y. M.
C. A. has been organized by the 100
men who have volunteered from Oak-
land for Y. M. C. A. service in the army
campaigns abroad. Membership is open-
ed to their women relatives. Mrs. Edward
Eccleston, whose husband was ordered
abroad but who has been sent to West
Virginia on a mission of recruiting in
the Washington district, has been nomi-
nated chairman of the executive board, which
includes Mrs. S. S. Hughes, vice-
chairman; Mrs. D. A. Corey, Mrs. B.
W. and Mrs. W. J. Place. The ad-
visory board includes William Nat
Friend, W. N. Jenkins, Dr. H. C. Dietz,
A. U. Brand and Hugh Evans. Regu-
lar meetings will be held on the first
Thursday evening of the month.

**American Women
Are Cited by French**

WITH THE AMERICAN ARMY
IN FRANCE, Sept. 6. (By the Asso-
ciated Press.)—The French, and Murray
Dike, president, and Miss Anne Mor-
gan, vice-president, of the American
committee for relief in the de-
vastated regions of France, have been
cited in orders of the day by Gen-
eral Degoutte, commanding the
sixth French army. The citation says
that Mrs. Dike and Miss Morgan
"for more than two years have con-
centrated themselves with intelligent
activity and admirable devotion to
restoring French firesides devastated
by the enemy."

**Construction Work
Follows Lawsuits**

With the settling of lawsuits involv-
ing the opening and extension of Broad-
way from its present terminal near
Chabot Road to the Tunnel Road,
plans are now afoot for the comple-
tion of the construction. The
extension will intersect a portion of the
Charles Butters property in North Oak-
land and join with the Tunnel Road
near the Duncan McDuffie property in
Claremont. It will be a short cut from
Broadway over Broadway to the Tunnel
Road, and the Skyline Boulevard, the
route now going to the Claremont Ho-

**Habeas Corpus Writ
Is Granted for Ebel**

SAN FRANCISCO, Sept. 6.—A writ
of habeas corpus returning September
11 was granted to Ebel, detained in
the Alameda county jail since April
18 as a necessary government witness in
the Sacramento I. W. W. cases, was
granted Attorney George C. Collins Jr.,
representing Ebel, by Federal
Judge Maurice T. Doelling. Special
Federal Attorney Caspar A. Orbanum
will be required to appear at that time
why Ebel should be further held.

**Evelyn Ellis Will
Enter War Service**

Miss Evelyn Ellis, a well known young
college woman, left this morning for
New York, en route for France, where
she will do war service.
Miss Ellis is a sister of Mr. Leo
Randolph, and is a graduate of Stan-
ford University, winning her doctor's
degree at the University of California.

MORE NEEDED TO ASSIST IN 18-45 DRAFT

Volunteered to help register yet?
This is the one question the Oak-
land draft board officials ask about
everyone—whether they ask it mentally
or orally. For workers—many workers
—are still needed for the coming 12
when Oakland's manpower between 18
and 45 years of age is to be regis-
tered for national service.

Many patriotic citizens have volun-
teered to help register the men. The
University quota of 200 will be a great
aid. But more than 800 are needed to
properly handle the registration in the
city.

Mayor Davis has issued a public call
to all citizens to enlist 10 possible for
the day and help the government get
its army. Elderly men, who cannot be
used, The work is very simple, but
extremely necessary.

Anyone willing to enlist for the day
may receive full particulars at draft
board headquarters or from the city
clerk.

SPEED CHIEF OBJECT.
Speed is to be the one aim of the
draft board and the office of Provost
Marshal-General E. J. Crowder in get-
ting the new draft into shape. The
call for men is insistent and the train-
ing camps, fully equipped, and the
schools and colleges which are to train
soldiers, are waiting.

Crowder is confident that he will be
able to register and classify 13,000,000
men by January 1, according to the
word received by the local draft board.
President Wilson's orders are expected
to be issued in a few days to outline
the classification into which the new
registrants are to be placed. The first
group to be handled will be the men
between 19 and 21, and that the first
of these men will be called in October.
The last group, 45 and over, will be
classified will probably be that from
40 to 45.

At the end of August, General Crow-
der has announced, 60,000 men have
been inducted into the national service.
By October 1 the available class 1 ma-
terial would have been exhausted, and
for this reason short cuts in handling
the new registration are necessary.

Hence every volunteer to help register
Oakland's men on September 12 will
be a direct and important help to Uncle
Sam's basic.

Heavy work confronts the local draft
boards in tabulating and classifying the
thousands to be registered. The office
of the provost marshal is doing the
crush of work, and expect to cope
successfully and speedily with it.

Every man between 18 and 45—or,
in other words, who has reached his
majority, but has not yet reached his
46th birthday—must register, at the
polling place of the precinct in
which he lives, whether a foreigner
or citizen. Failure to do so means one
year in jail and forcible registration
under the law. Every facility will be
offered all registrants.

The local draft boards are still being
beasted by men desiring to register
early. If such men are to be out
of town and near no other draft board,
they are being registered; otherwise
they are being registered to visit the
board near where they will be, and have
their cards forwarded by mail to the
proper Oakland board.

A group of 113 of selected men,
113 in number, are now in Camp Kear-
ney. The men enlisted yesterday from
fourteenth and Franklin streets, es-
corted by a detail of police headed by
Captain E. J. Lynch. The men were
from various boards to fill extra calls.
Fifteen were from Board No. 1, twelve
from No. 2, seventeen from No. 3, nine
from No. 4 and twenty-six from No.
5 and No. 6 each. A few men were
also sent from District No. 7 in
Fruitvale.

Belgian Fete Plans Near Completion

Committee chairman of the Belgian fete
to be held Saturday at the home of Mrs.
Duncan McDuffie in Claremont Septem-
ber 14, met yesterday afternoon at the
McDuffie home to complete plans for
next week's festivities. Mrs. George C.
Fensen, chairman of the details of the
fete, has the co-operation of Eastbay
social leaders, each of whom will do her
utmost to make the affair a crowning
success for the benefit of the Piedmont
Oakland chapter, California Relief for
Belgium and France.

A feature of the afternoon's enter-
tainment will be the musical dancing
by Misses Virginia and Alice Marvin.
Mrs. Thomas Arthur Rickard of
Berkeley will have charge of the music
assisted by Miss Amy Holman. The
"stringing musicians" will be accom-
panied in their pilgrimage through the
grounds by Signor Antonio de Grazi.

Mrs. Norman Lang of Portland is a
visitor to the bay section who will lend
her aid, as will Mrs. Edson F. Adams.
Mrs. H. Spens Black, Mrs. Duane Bliss
and Mrs. Frederic Magee.

The committee in charge requests the
co-operation of all persons eager to give
assistance to the stricken nation of
Belgium. All funds are handled solely
through the official committee of Com-
mission for the Relief of Belgium un-
der the leadership of Herbert Hoover.

"SEER" IS CONVICTED.
SAY FRANCISCO, Sept. 6.—Mrs.
E. H. Sunderman, 45, Waller
street, a fortune teller, who was
trapped by Policewoman Catherine
Eisenhart and Fred Broh, a member
of the police war squad, was con-
victed by a jury in the United States
District Court yesterday of making
seditious remarks.

**"BELLBOY EIGHT"
WON'T BE FIRED;
NO COMPLAINT**

"Gimme Bellboy No. 8!"
This was the frantic call that
came over the telephone to the Hotel
Oakland today. It might have been
an irate guest. It might have been
a frantic seeker of lost property. It
might have been a madman, anything
amusing, to judge by the urgency of
the call.

Bellboy No. 8 was summoned from
the top floor.

"Young man," accused Assistant
Manager Rounsavell. "Here is a se-
rious complaint. I guess. Some one
wants you mighty bad on that
phone. Find out what it is and then
explain."

Bellboy No. 8 listened at the
phone—then grinned.

"No complaint at all," he re-
plied. "It's a hoax."

Here's the explanation.
Born—to the wife of Tom Hat-
away (that's Bellboy No. 8), a son.
Incidentally, it's his second.

**Film Benefit for
War Work Planned**

Plans are actively under way for
the building fund benefit, to be
held all day, September 16, by the
Motion Picture Operators' Union at
the T. & D. Theater, the proceeds to
go to the building fund of the Red
Cross, to buy materials for the Red
Cross hut to be erected on the city
hall plaza.

Union labor has donated the labor
for this building fund benefit. It is ex-
pected to net a large sum for the ma-
terials. The program will be an-
nounced in a few days.

**George Sterling
Returns to West**

George Sterling, California poet, whose
former wife, Mrs. Carrie Sterling, re-
cently died here, has returned to Cal-
ifornia. He is now in San Francisco,
where he lived up to a few days before
his former wife's death, when he left
hurriedly for the East.

Sterling's time ago was announced
to be engaged to Stella Tuttle, a dancer.
Miss Tuttle is now in the East.

Traitor Sentenced to Five-Year Term

SAN FRANCISCO, Sept. 6.—The first
severe penalty for violation of the es-
sential security act of the chief forest
guard today to Kurt Schreiber, a local
barrister, by Federal Judge Maurice T.
Doelling, who sentenced him to McNeil
Island for five years. According to the
testimony of many intelligence bureau
operatives, Schreiber was a German
and the indictment prosecuted by As-
sistant U. S. Attorney Caspar A. Or-
banum. Schreiber had advised Nelson
that he would kill a couple of hun-
dred American soldiers and run for the
German trenches. "America was the
scum of all nations," he further ad-
vised Nelson that he intended to smug-
gle himself aboard a ship at a Mexican
port and on arriving in Sweden to join
the German army. Schreiber pleaded
guilty to the charge.

Ranger's Wife Is Dead From Attack

THEODORE, Sask., Sept. 6.—Mrs.
Edward Reatty, wife of the chief forest
ranger here, is dead following an attack
made on her by Harry Hellecourt, a
half-breed, who after beating his vic-
tim and locking her in the cellar of her
home, kidnapped her twelve-year-old
daughter.
Mrs. Reatty succumbed to the effects
of the brutality, exposure and shock last
night.
Hellecourt released the girl at sunset
last night after leaving her prisoner all
day in a grove within four miles of the
home, after which she returned to find
her father grief-stricken at the loss of
his wife. The murderer was captured.
The German army. Schreiber pleaded
guilty to the charge.

Oaklander Is Cited For Bravery Splendid Heroism Wins Crosses

Lieutenant Fred A. Tillmann, son of Mrs. Fredrick Tillmann of Menlo Park and former manager of the Oakland house of Tillmann & Bend, who is cited for bravery under fire by General Pershing. Lieutenant Tillmann enlisted in Washington at the outbreak of the war, entering the navy as paymaster. Later he was transferred to the aviation service, where he obtained his commission. He is 27 years old and unmarried.

Lieutenant Tillmann flew over the enemy lines at an altitude of 1500 meters under violent machine gun and anti-aircraft fire. Shooting down between the lines, his plane riddled with bullets and his pilot severely wounded, he picked up his pilot and carried him more than 200 meters to the French first line after he himself was wounded in the neck.

The Tillman family is prominently identified with the commercial history of this part of the state and with the early development of California.

Graphic stories of the individual heroism and daring of forty-one American officers and men fighting in France are told in cryptic citations by General Pershing in awarding them distinguished service crosses. The citations were received at the war department as a delayed section of General Pershing's communique for Wednesday.

One of the men decorated was a private of infantry, who was attacked by eleven Germans when he entered a cellar at Vaux, July 1, to install a telephone. He killed two of the enemy and took the other nine prisoners. A corporal of infantry cleared out a farmhouse near Villers-sur-Pere, July 28, single-handed, killing four Germans, capturing one, and holding the house by himself until support arrived.

Sergeant of infantry, after rushing ahead of his line near Serzy, July 25, was so badly wounded that he could not stand. Then Germans of the Prussian Guard attacked him. He drove to his knees, shot five of them and the others fled. In another case a private of infantry, on July 28, near Villers-sur-Pere, saw six Germans

\$40,466 Per Minute Spent by America
WASHINGTON, Sept. 6.—Government expenses in August were at the rate of more than \$40,466 a minute, reaching the enormous total of \$1,805,513,000 and exceeding by more than two hundred million dollars the highest previous monthly record of expense since the war began. Of the total, \$1,624,901,000 went for the upkeep of the army and navy, ship and airplane construction and other direct war expenses.

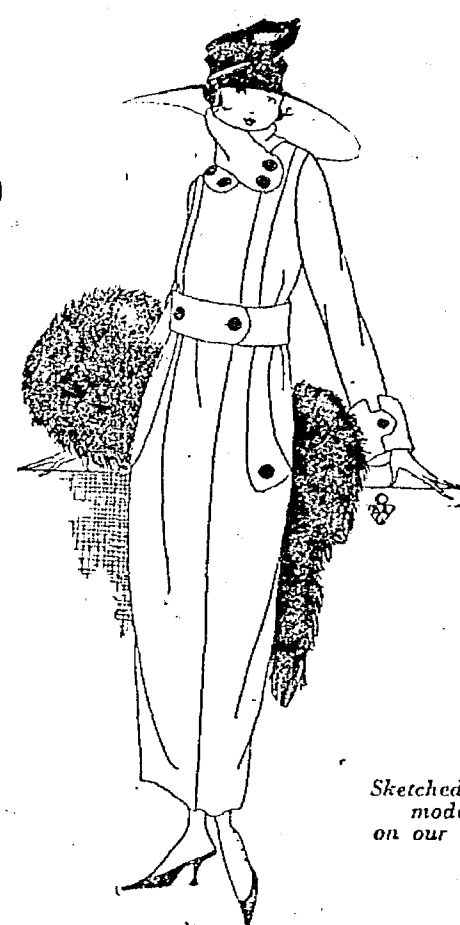

Alaska Pulp Mill Will Be Built Soon
JUNEAU, Alaska, Sept. 6.—Alaska's first pulp mill is soon to be built on Hunter bay, 40 miles from here. The plant is to be put up by W. S. Peckovich, Juneau, who has obtained a government grant for 20,000,000 feet of lumber on the shores of the bay. Several years ago a pulp mill was located at Ketchikan but it was destroyed by fire before it was ever operated. It is believed the industry will thrive as there are hundreds of millions of feet of timber in Alaska unfit for other purposes.

How about your Holiday Attire?

Are you ready for the holidays? Or have you put off buying your Fall outfit until you fear it is too late to have it for Monday? The coats this year are so roomy, and yet so well fitting that we are almost certain to be able to fit you in a coat which you can wear home tomorrow. Let us try it.

Coats \$25.00

This very coat, just in, has been reduced for an Admission Day special. All-wool broadcloth in taupe, brown, navy, black, green, burgundy and Pekin. This beautiful coat is interlined and then lined throughout with Venetian satin. Strictly tailored, with aeroplane collar. Especially smart for the woman who has her own furs. Sold for this price tomorrow only.

Sketched from our floors

Dresses \$17.50

The dress illustrated is one of the many charming costumes we are selling at this very low price. It is of satin, with Georgette or satin sleeves, and ball fringe trimming. Comes in burgundy, black, navy and taupe.

There are also serge and jersey dresses at this price, and many more models in satin—in fact there are hundreds to choose from, so it should not be hard to find a becoming dress, and one to fit with very little alteration.

Children's Coats

Stylish little winter coats for tots under \$4.59 school age. Corduroys in double-breasted style, with two pockets, all-around belts, and quilted linings. Dark colors. Also mannish mixtures with velvet trimmed pockets and collars. Two to six-year sizes.

Warm Fall Frocks For Little Girls

Warm little dresses of serge, black and white checks and plaids, prettily made. Some are trimmed with contrasting colors, others are braided. Sizes 2 to 6 years. Tub dresses of chambray, gingham and percale are also included.

Last Day for these Silk Specials

Really wonderful values, as sales this week testify. The old prices, which are very low at this hour in the world's history. A chance to make up a lovely dress for very little money.

Black satin and taffeta \$1.19 yard
Yard-wide satin and chiffon taffeta, very specially priced. (Limit, 10 yds. to a customer)

Dark blue satin, \$1.89
Imperial satin, 40-inch width, in mid-night and navy blue only. (Limit of 5 yds. to a customer)

Chiffon broadcloth, \$2.95
All-wool chiffon broadcloth, 56-inch, in navy and black. (Limit of 5 yds to a customer)

Sweater Special

Angora, wool and mercerized sweaters \$3.10 in coat or slip-over styles. Many are samples, all are bargains. Sizes for misses and women. Smart styles and desirable colors.

Knitted Slip-Overs

They've just arrived these dressy, neat-fitting slip-ons. Fitted waist line, crocheted edge at neck, sleeve and bottom. Come in rose, Copen, turquoise and melon.

Tub Dresses

Our better dresses of crepe, voile and \$3.00 gingham are radically reduced because the season for them is closing. Since women wear the light weight dresses indoors all winter it's a good time to buy.

Two-toned Hats Are Vogue

Nothing is newer or more modish than the two-toned hat of this season. Large, straight line black velvet hats, with soft crowns; facing of black if preferred, but the thing is the contrasting facing of pink, taupe, sand, turquoise, purple or Pekin.

Also velvet and satin combinations in black and white, new blue and white, etc. In the fashionable shapes, simply and smartly trimmed.

Your choice of any of these big, becoming hats for \$6.45

See our percale house dresses at \$1.00

Voile and Madras Waists

Pretty waists in white and colors—some striped, others cross-bar. Lace trimmed, \$1.19 embroidered and tailored styles, with large collars or high necks. All sizes to 46. Very special.

What's New in Neckwear

Monk collars are the latest in neckwear, and there are interesting new arrivals in satin and organdie monks with net or self frills. Hemstitched satin vestees, frilled net collar and cuff sets, embroidered Georgette in sailor and rolled collars, all are chic. Whatever you need, from corded silk, organdie or satin collars to elaborate collar and cuff sets you'll find here priced from.....35c to \$2.50

Corsets \$1.75

An unusual corset-buying opportunity. Discontinued models of such well-known makes as Royal Worcester, W. B. C.B., a la Spirite, Miller and Warner. Medium and high bust styles, with medium and long hips. Sizes 18 to 36. Some were formerly double the price.

Pink Undervests of Kayser Silk \$2.25

Two types of vests at this price—the band top with shoulder straps and the bodice vest, with band top, and elastic. The latter is reinforced under the arm. These are beautiful new garments, just in. We have bloomers to match, too.

Holiday Hosiery

Silk boot hose, 75c pair
Pure thread silk stockings in black, taupe, silver, gray, pink, rose, new blue, Nile green, gold and lavender. Real value.

Clocked silk stockings, \$1.25 pair

Beautiful embroidered stockings, seconds, but at half the price of regulars. Some are slightly mended, so pick them carefully, as they will not be exchanged.

Remember when you buy here you get 25% green trading stamps

Private, first class, Franklin B. McVickers, infantry, "at Vaux, July 1, acting as stretcher-bearer, although wounded twice, continued to make trips through an intense barrage to carry back wounded."

Private, first class, W. A. Shalinsky, infantry, "at Vaux, July 1, having entered a cellar to install his telephone, was attacked by eleven of the enemy, of whom he killed two and took nine prisoners single-handed."

Private Edward A. Bellanger, infantry, "at Vaux, July 1, bravely attacked eight of the enemy, killing and capturing the remainder."

Major William J. Donovan, infantry, "led his battalion across the River Ourcq and captured important enemy strongholds near Villers-sur-Pere, France, on July 23-24, 25-26. He was in advance of the division for four days, all the while under shell and machine gun fire, and was repeatedly and persistently counter-attacked, being wounded twice. His coolness, courage and efficient leadership rendered possible the maintenance of this position."

Captain Thomas J. Reilly, infantry, "wounded and ordered to the rear, nevertheless remained with his men in an exposed and dangerous position which it was necessary to hold."

Cook Henry C. Rickett, infantry, "maintained his kitchen at Chateau de la Forest, near Villers-sur-Pere, France, on July 28-29, under bombardment so intense as to drive all other kitchens out of the village. When his stove had to be taken to the rear, he improvised a fire in the ground and continued his work until ordered to leave."

Sergeant Frank Gardello, infantry, "when two enemy airplanes flew parallel to our infantry lines north of the River Ourcq, near Villers-sur-Pere, July 28, pouring machine gun bullets into our positions and driving everyone to cover, Sergeant Gardello rushed to his machine gun and took aim at the upper of the two machines. Although he was constantly subject to a storm of bullets, he coolly sighted his gun and riddled the upper plane. It collapsed and fell in flames, striking the lower one as it fell and causing it to crash to the earth also."

ESTABLISHED 1896

Old Stuff

Thomas Edison went months after months before he could get any one to take his electric light bulb seriously. At first no one would allow him to wire their buildings. He was driven out of one building after another. People didn't want any of his "foolishnesses." They were scared that his electric bulbs would explode and blow their buildings into limbo. Many thought the police should lock him up. He was all too dangerous to be allowed to run at large.

It's old stuff. He had a new idea. If Edison were a quitter, today we would probably be reading by candle or kerosene. You didn't pay any attention to what the knackers had to say. Just kept busy, and in spite of almost universal opposition forced the electric light scheme on us.

My notion of higher quality dentistry at a lower price. I have been hammering away for the past twenty-two years and have been feared and not feared at the same time. Opposition is trying to check my progress with their sneers and abuse, but in spite of the Andersons' dependable dental service is growing larger. Thousands of satisfied patients testify to my incomparable service. My analysis method assures you that your work will be entirely free from pain.

My guarantee means something. The doctors associated with me are all honorable men. You will find my office the last word in sweet sanitation.

My prices are one-half what most dentists charge.

Indigestion. A few weeks ago I used a bottle of Chamberlain's Tablets when I was having a bad spell of indigestion. These tablets strengthened my stomach and toned up my system generally. They are easy to take and most efficacious. Write to S. B. Chamberlain, N. Y. For sale by Osgood Bros. Drug Store—Advertisement.

TRIBUNE FIRST TOLD BLUNDER AS TO PEARS

The first intimation that Governor Stephens received that Judge Howard A. Pears of Kern county was ineligible to succeed Corporation Commissioner Carnahan was when a TRIBUNE representative called his attention to the section of the constitution which was attending a luncheon at the State Fair yesterday. Judge Pears had accepted the office. Lawyers are wondering how it was that Kern county's superior judge, who has been engaged in the practice of law for many years, overlooked the section of the constitution barring superior judges from accepting other offices or public employment during the term for which they have been elected.

The exclusive story published in yesterday's TRIBUNE created a sensation in political circles and is renewing discussion over the removal of a Corporation Commissioner Carnahan.

MIGHT HAVE EVADED IRE.

The general opinion is expressed that the removal of Carnahan and the appointment of Pears came through the recommendation of E. T. Earl of Los Angeles. It is believed that before another appointment is made the constitution and laws of the state will be carefully scrutinized in order that the next appointee may be eligible. It is generally admitted that as a matter of policy it would have been of far better judgment for Governor Stephens to have delayed the declaration of Carnahan until after the November election. Had this been done the irate Senator Johnson, Chester Rowell and other former Progressive leaders would not have been aroused until too late to have reacted upon the governor. The row which the incident has caused is leading encouragement to the Democratic hosts and there are indications of a getting together of the various factions.

LOOK TO LEADERS.

From Democratic inner circles comes a story to the effect that responsible party leaders are making considerable headway in harmonizing differences. The attack of honey upon McNab has been generally condemned. It is conceded that no man is closer to the national administration and no Democratic leader possesses greater ability.

In the meantime lesser lights have been doing most of the talking. Now they find themselves compelled to turn to the brains of Bourbon leaders such as McNab if the party is to be extricated from its present predicament.

Colonel Alexander Gordon, State Railroad Commissioner, takes umbrage at the statements of Martin Matsen, private secretary to Governor Stephens, that he had held a club over the governor's head in an endeavor to obtain a re-appointment at the expiration of his present term as railroad commissioner, which ends July 1, 1919.

"Not only is no statement of Matsen not true," declared Gordon, "but, if he said what has been published, he but confirms my contention as to the incompetency of the managers of Governor Stephens."

"The facts are these," Colonel Gordon continued. "On March 10, when Governor Stephens was in my office, I stated to him that when the term of my office expired I would like reappointment as railroad commissioner. At that time he said to me: 'I have no objection to your being reappointed, but I have a stronger man than Stephens as governor and I made up my mind, as soon as I learned the Senate was aspirant to support him. On August 1, I sent a letter to the governor asking him to disregard my request for reappointment and on August 5 expressed to Mr. Heney my intention to support him.'"

WATCH OUT! 2 POLICEWOMEN TO WORK IN CITY

Oakland will shortly have two regular policewomen, the city council adopting an ordinance submitted by Commissioner F. F. Jackson providing for the appointment of two female members of the department. Commissioner Jackson stated that he has not yet decided upon the appointees and will make no announcement until the final passage of the ordinance eight days hence.

"What's the idea?" asked Mayor Davis when the ordinance was read. "You are not going to spring any Woman Protective Bureau on us, are you?" "No, this provides for regular cops, who will be directly under the jurisdiction of the chief of police and draw a regular salary the same as any other patrolman in the department," replied Commissioner Jackson. "I have had conferences with federal officials and it is agreed that by placing a couple of women officers on the force it will go a long way toward remedying certain vice conditions in the city. There are certain angles to the vice situation that practically necessitate that we have women police."

The ordinance received the unanimous approval of the members of the council.

French Will March in Great Parade

Members of the French and Belgian colonies on the east side of the bay have been requested by the French War Service League of Alameda county to march in the French and Belgian division of the Admission Day parade here. This division will assemble at Tenth and Grove streets at 10 o'clock in readiness for the start of the parade.

A feature of the division will be a decorated float symbolic of the alliance of the United States, France and Belgium. Thirty French marines who have just arrived here will march on either side of the float. Pretty French maids in national costume will be in the line of march, as well as a band, and decorated automobiles carrying leaders of the cause. French societies. Hundreds of French and Belgian residents will form the body of the division.

Committee to Head Engineers' Affairs

SAN FRANCISCO, Sept. 6.—The engineering societies of San Francisco have just elected a joint committee which will govern the activities of the various organizations. They are the American Society of Mechanical, Civil, Mining, Electrical and Chemical Engineers.

The members of the committee are: C. D. Marx of Stanford University, chairman; E. C. Hutchinson, vice-chairman; E. C. Jones, of the P. G. & E. Company; Nathan E. Bowers, secretary-treasurer, and E. O. Shreve, assistant secretary.

The committee has suggested to Governor Stephens that he appoint an engineer on the Railroad Commission as that body is continually passing on engineering problems.

A general meeting of all the societies will be held on October 25.

pointment as railroad commissioner. As time ran on I became more and more convinced that California should have a stronger man than Stephens as governor and I made up my mind, as soon as I learned the Senate was aspirant to support him. On August 1, I sent a letter to the governor asking him to disregard my request for reappointment and on August 5 expressed to Mr. Heney my intention to support him."

Riot Call Needed to Break Up Rowdies

When the Melrose police went to round up a gang of youths who have been accused of entering freight cars and interfering with canneries employees at Twenty-ninth and Railroad avenues last night they were threatened by members of the gang.

with the result that a riot call was sent into the Melrose station. Corporal Peter Van Houtte and Patrolman A. Shields responded and with the assistance of railroad police arrested seven youths, who are charged with malicious mischief and resisting arrest. Those in custody are Joe Perry, Manuel Viera, J. P. Pandolfo, Tony Costa, Richard Velozza, Theodore Rompage and Peter Machado.

Jalome! Lose You a Day's Work! Take Dodson's Liver Tonic Instead

Read my guarantee: If bilious, constipated or head-achy you need not take nasty, sickening, dangerous jalome! to get straightened up.

Every druggist in town—your druggist and everybody's druggist—has noticed a great falling off in the sale of jalome!. They all give the same reason. Dodson's Liver Tonic is taking its place.

"Jalome! is dangerous and people know it, while Dodson's Liver Tonic is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tonic is personally guaranteed by every druggist who sells it. A large bottle costs very much but if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tonic is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day, like violent jalome!. Take a dose of jalome! today and tomorrow you will feel weak, sick and nauseated. Take a day's worth of Dodson's Liver Tonic instead and feel fine, full of vigor and ambition.—Advertisement.

KEEPS HUSBAND OUT OF JAIL TO INSURE SUPPORT

On the theory that her husband would be in a better position to pay alimony if he were not in jail, Mrs. Dora Thayer, a bride of a month, refused to prosecute him on a charge of battery and obtained a dismissal of the case of Dave Thayer in Police Judge George Samuel's court.

The Thayers lived at 371 Twelfth street. Mrs. Thayer complained that her husband beat her severely and that he had failed to provide for her 9-year-old son. She announced her intention of applying for a divorce.

Private Kessel Is Home On Furlough

Private Philip Kessel is here on furlough from Camp Lewis and is visiting his mother, Mrs. Freda Kessel, 432 Thirty-eighth street. He was formerly manager of I. Kessler, grocers. He is being entertained here.

DR. JOHNSON TO LECTURE. The second of the series of lectures being given under the auspices of the California Psychological Research Society will be delivered by Dr. David Starb Jordan next Monday evening, at 8 o'clock, at Yosemite Hall, Native Sons' building. The topic will be "Psychical Research as Viewed by the Scientist."

WAR MUST GO ON, DECLARES REV. PALMER

"The League of Peace is in actual operation," declared Rev. Albert W. Palmer, former Oakland clergyman and playground commissioner, speaking last night before members of Oakland Associated Charities and the Alameda County Union of Social Agencies at Hotel Oakland. "It is organized to fight this war until it is settled to see that never again can such a thing be repeated. It is composed of France, Belgium, England, Italy and the United States, with the more remote China, Japan, Serbia and other allies.

"When the present German government is wiped off the map and the German people established as a government that we can live with we will be glad to welcome the next Republic of Germany into the League of Nations."

Palmer has been making tour of the thirty-eight training camps in California on behalf of the Y. M. C. A. This week he returns to his ministerial duties in Honolulu, expecting in April to sail for France to engage in recreational work.

WAR IS NECESSARY. "It will take more than a generation to replace in the hearts of men the nobility which this war has wiped out in the ranks," he said. "We have come to a realization that this war is necessary and fundamental and must be won to go on with those other wars which humanity must fight. Behind the struggle is a great social purpose."

The speaker touched on the effect the war has had on the development of the woman movement, the social control of industry, the socialization of health and medicine, the safeguarding of morals and the advance of religious thought making for a united Christianity rather than the old denominational lines. He placed the responsibility of winning the war upon the civilian community.

"Give to your social workers who actually do the yeoman service proper working conditions," was the plea of Mrs. Duncan McFarlane, who was the second speaker of the evening. "Rear a proper standard that will give them adequate offices and assistants and fair salaries. Boards of directors are too apt to take on the home for achievements in which they have had little part."

WORK IS UNDERTAKEN. Appropriations for the new county hospital, the appointment of a woman deputy district attorney and provision for two women protective officers in Oakland were announcements which were received with enthusiasm by the Associated Charities and Alameda County Union of Social Workers at the annual dinner.

Charles E. Snook made a report of the hospital committee which has been the directing power in obtaining at this time the new public hospital. "We are seeing the stream of the poor fund come true for the first time," he asserted.

Dr. Susan Fenton, president of the Associated Charities, and Robert Leet, president of the Alameda County Union of Social Agencies, were the chairmen of the program which followed the dinner, which was attended by 600 prominent men and women. The following directors were elected to serve the Associated Charities for the coming year: B. H. Pendleton, Robert A. Leet, C. S. Green, J. Allen, C. E. Keyes, Dr. S. I. Shew, Miss Elizabeth Sherman, Miss Annie F. Brown, Dr. S. J. Fenton.

Police Seek Doctor's Death-Trip Companion

SAN FRANCISCO, Sept. 6.—In the hope of solving the mystery of the death of Dr. John P. Shields, whose body was found Saturday in a lonely spot near the Mendocino house on Crystal Springs road, half a mile from where his automobile was wrecked at the bottom of a deep ravine, the police are searching for a woman said to have been the companion of the doctor on the death trip.

She was seen and talked to by the matron at the San Blasco hotel house at 5 o'clock of the morning of the doctor's death, where she appeared and attracted attention by wrapping on the window. The woman was excited and explained that she had been out with a married man whose machine was wrecked and that she had to get back to San Francisco to work by 8 o'clock.

Whether the physician committed suicide or was murdered the police are unable to determine from the evidence at hand. According to Bruno Berndorf, proprietor of the Mountain House, after the door had stopped for a drink and returned to his machine, he handed the woman a nickel-plated revolver, which she put in a side pocket of the car. This revolver was found near the body.

Made-to-Order SUITS

Suits made by a man from your individual measure from pattern selected by you should be preferable to a selection from a job lot of "hand-me-downs."

Just as true for women's suits as men's.

I make both.

Two Girls Capture Youthful Burglar
HAYWARD, Sept. 6.—Miss Olive Allen, daughter of Mrs. F. F. Allen, former president of the Hill and Valley Club, and Miss Allice Crestman, captured and held a youthful burglar whom they discovered rifling the store of Charles Allen. The girls heard suspicious noises when passing the store and upon investigating found a boy about 15 years of age, armed with a knife and a revolver. The young women applied with the youth and despite his struggles to capture him. He had escaped from the Detention Home in Oakland and was returned there after a hearing before Justice Frank Mitchell Jr.

Service Flag to Be Put on City Street
HAYWARD, Sept. 6.—A resolution of \$1.15 for each city was decided upon by the city trustees at a meeting this afternoon. The trustees arranged to hang a large service flag on it street for the men of this district who have gone to war.

STRENGTH FOR WEAK NERVES

We do not give much thought to our nervous system when it is working all right but when it goes wrong nature has a way of calling it forcibly to our attention by something that we cannot overlook—pain.

Try to reach a diseased nerve with medicine of any sort and you are confronted with a fact that every doctor knows, that the only way to reach the nerves with medicine is through the blood.

Miss Stella Coffield, whose address is R. F. D. 2, Centerburg, Ohio, says: "I was sick for six months and in bed for ten weeks. I doctored faithfully for two months and kept getting worse and finally had a stroke of paralysis which affected my right leg and arm and speech. I could not talk for two weeks and I had no use whatever of my leg and arm. I was very nervous. My people thought I would never be anything but a helpless cripple."

"It was through my father that I commenced taking Dr. Williams' Pink Pills. He was discouraged and when he read about the pills he decided to have me try them. I could soon see a change and gave the remedy a thorough trial. The numbness in my leg finally disappeared and after a time I could walk. I grew stronger and really think that if it had not been for Dr. Williams' Pink Pills I would still be a helpless cripple."

The treatment in cases like this is one of nutrition of the nerve cells, a non-alcoholic tonic such as Dr. Williams' Pink Pills. Your own druggist sells the pills. Price 50 cents a box; six boxes for \$2.50. Write to the Dr. Williams Medicine Co., Schenectady, N. Y., for free book on home treatment of nervous disorders.

The Perfect Baby Of The Future

A Simple Method That Has a Wonderful Influence upon The Future Infant.

Before the arrival of baby knowing women of over half a century have used with regularity the time-honored preparation, Mother's Friend. Here is a most wonderful application for the abdomen and breasts. It penetrates the muscles, ligaments and tissues, rendering them more pliable and yielding to nature's demand for expansion. By its use the anxious weeks of pregnancy are made comfortable. The usual wrenching strain, bearing-down and stretching pains are counteracted. The system is prepared for the coming event, and its use brings rest, repose and happy anticipation. By the regular use of Mother's Friend during the period the muscles expand easier when baby arrives, and naturally the pain and danger of the crisis is less. Mother's Friend is prepared after the formula of a famous doctor by the Bradford Regulator Co., A. H. Leland Bldg., Atlanta, Ga. It is for external use only; is absolutely and entirely safe and wonderfully effective. Write them for their instructive and interesting "Motherhood Book" there is a wealth of instruction and comfort to be derived in reading this little book. It is written just what every woman wants to know and will be a splendid little book of guidance, not only for yourself but will make you a help to others, and in the meantime obtain a host of Mother's Friend from the druggist, and thus fortify yourself against pain and discomfort.—Advertisement.

Sleeplessness Corrected by Internal Baths

Mr. J. B. Barrows writes Dr. Chas. A. Tyrrell of New York as follows: "I am still using the 'J. B. L. Cascade' once a week, and find it most beneficial for the nervous system. It acts as a sedative for tired nerves and has been a great help for sleeplessness. I have also used it from bed and used it in the middle of the night with satisfactory results." "The reason for this remarkable result is because the functions cannot work properly when there is accumulation of waste in the body in the morning. The 'J. B. L. Cascade' by the simple process of properly applying warm water all eliminates all this waste, causes the functions to work smoothly and properly. Over half a million intelligent Americans are now using the Cascade with similar results. It is the invention of Dr. Chas. A. Tyrrell, M. D., of New York, a noted specialist on internal bathing. It will be shown and explained to you by The Owl Drug Co., who will be glad to give you an interesting booklet, by Dr. Tyrrell, called 'Why Sleep Today is Only 50 per cent. Efficient.' This booklet is free upon request. Ask for it today while you think of it.—Advertisement.

School-Teacher Needed Brains

"I never have had such a 'God-send' come to me as when I took the first dose of Mayr's Wonderful Remedy. I was weary and wanted to give up my school because of severe stomach, liver and bowel trouble which caused such a pressure of gas that I could not use my brain at times, and my heart would palpitate awfully. Since taking a treatment of Mayr's Wonderful Remedy a year ago, all this has disappeared." It is simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Osgood's Dept. Drug Stores and druggists everywhere.—Advertisement.

OAKLAND SITE FOR U.S. FLEET: ALEXANDER

"Idaho is in favor of a navy second to none in the world, and the best harbor that we know of on the Pacific for such a navy is the bay."

This is the message from an inland State, brought by Governor James Alexander of Idaho, who spoke today before the Oakland Lodge, No. 262, of B'nai B'rith, at a luncheon given in his honor at the Hotel Oakland. Governor Alexander has come to the coast to visit military training camps where Idaho men are receiving military instruction. He said that, although an inland State, Idaho is as much interested in shipbuilding as even the coast States, knowing that ships will win the war.

SEES IDAHO BOYS. "I came to visit the boys, San Francisco, Camp Fremont and the Presidio," he said, "to see the Idaho boys, of whom there are more than 10,000 in the military establishment of the government. Now that I have seen them, it has impressed me with the fact that the nation, and the only conclusion that I can come to is that we will win the war by the cooperation of our allies and American vigor and manhood."

"I am in Oakland today to see the shipyards. Idaho is much interested in the shipbuilding of the West, although an inland State. We are in the first of a second to none in the world, and the best harbor that we know of on the Pacific Coast for such a harbor is the bay."

INTERESTED IN BAY. "The waters of the Pacific have as much interest to us as the bay. We want to be in touch with the Orient that is about to be opened up to the United States. The bay is the natural outlet harbor for our products, and I rejoice in the growth of Oakland as much as any citizen of this city himself. San Francisco is the financial center for Idaho, made so by Federal Reserve Bank No. 12, and I expect to see Oakland the shipping point for the creation of the Merchant Marine and the Navy on the Pacific. To me both towns are alike. They both have an interest for Idaho, and while they may be different in name, we are fast becoming aware of the fact that we have a common interest, common to the people of the common cause—the greatest of all causes—victory of the military power of Germany from the face of the earth."

Governor Alexander took occasion to congratulate the members of the order on the advent of the New Year of their faith, which, he said, would bring to the people of Israel the realization of their dream of thousands of years—freedom. "At last we can realize," he said, "what I have said to you, really means. For 4000 years we have sung the Song of Deliverance, and now our deliverance is at hand—a day when reality all men of the world shall be free and equal. This terrible upheaval of the world will bring us to our goal; henceforward no ruler will ask what our faith is, and we will ask no one what their faith may be, but all will join in a common bond of the brotherhood of man."

"We have called ourselves the chosen people; but verily I believe that America is the chosen land to lead us to freedom; and no greater privilege can be given us than to live in these times. We have prayed for the restoration to us of the old Jerusalem, and in America we will find the old Jerusalem where again we shall be free—and through America in the rest of the world. My heart thrilled when I saw sons of Israel wearing the kippah, the cantonments. Those boys will do their duty. They knew what they are fighting for."

Injuries Followed By Damage Suits

Damages for \$20,000 are asked in a suit filed in the office of County Clerk George F. Gross today by Bertha Scott and L. S. Scott, her husband, against the Federal Construction Company, for injuries alleged to have been received by Mrs. Scott when she fell into an excavation made in College avenue on the night of January 6, 1918. She alleges that the excavation was not properly guarded. The injuries alleged consist of broken bones and serious bruises that rendered her permanently disabled. John McLean sues the Southern Pacific Company for \$5306 for personal injuries received when an automobile ran into him as he was boarding a ferryboat at the mole. He says he was walking onto the ferry when the machine ran into him from behind, knocked him down and crushed his foot.

Appropriation for Land Show Is Made

Over the protest of Commissioners Edwards and Soderberg the city council passed an ordinance appropriating \$20,000 to defray the expenses of the Pacific Coast Land and Industrial Exposition, which will open its doors next Monday. The council also appropriated \$10,000 toward defraying the expenses of the Native Sons' celebration here on Admission Day.

Asks Support for Two Minor Children

A complaint asking for \$100 a month for the support of their two minor children who died today in the superior court by Jessie M. Wall, also known as Jessie M. White, against Tillman White, inventor and promoter. The complaint alleges that the plaintiff is mother and the defendant is the father of the children, and that no marriage ever took place between them. It is alleged that the father has contributed nothing to the support of the children for several years past. They are in the care of the mother.

Man Who Dropped Dead Is Chris Fisher

SAN JOSE, Sept. 6.—A man who dropped dead in Magellan's store on the Oakland road has been identified as Chris Fisher, a well known cattle buyer in this country. He was a native of Austria, 44 years of age. The coroner's jury at the inquest today decided that death was due to acute dilation of the heart.

AGED 7, SHE STARTS LONG NIGHT TRIP

GRASS VALLEY, Sept. 6.—Little Mary Gail, aged 7, a pupil at the local convent, selected the space back of a billboard on the sidewalk in front of a theater here wherein to sleep at night. Mary was found there at 11 o'clock by the manager when he closed the theater. She ran nearly a block and turned up a dark alley before being overtaken by the night officer. The child was cared for at a local hotel until morning, and then returned to the convent. Mary told the officer she was homesick and had decided to run away to her home at Lincoln. She left the convent during the day, but did not leave town. Her parents are said to be living at Lincoln.

Jury at Fault in Verdict of Insanity

At 8 o'clock last night Edwin H. Weston was pronounced insane by a jury of the superior court, where he had demanded his right of trial. At 11 o'clock he was dismissed as sane. It happened this way. In a trial of an insanity charge it required two-thirds of the jury to agree to return a verdict. The members of the jury thought it required only two-thirds of the jury to agree to return a verdict. When eight of them voted to convict they reported into court and announced their verdict. The judge asked for the jury to be polled and discovered the error. They were sent back to deliberate until 11 o'clock, when that agreement was impossible, when they were dismissed.

Refuses to Help Daughter; Jailed

Presiding Judge William H. Waste today heard the delinquency case of Lena Rose, who had been previously committed to the care of the California reformatory for girls at Centerville, from where she ran away. When she was committed there her father, Joseph S. Rose, was ordered to pay \$15 a month for her maintenance. He has refused, and today continued to refuse. Judge Waste committed him to jail for five days.

"Starr-Adam"

An exquisite interpretation of the delicate witchery and simple elegance of Robert Adam's famous genius in wood-fashions. Observe the artistic moldings, the grace of detail, the charm of proportion. Inlays of exotic satin wood relieve the mahogany, which, elaborately aged and unstained, reveals the beautiful markings of its grain in their natural beauty. See this

From within there issues forth a sweet, bright, genuine-to-life tone from the Starr Singing Trumpet of Silver Grain Spruce, Nature's musically endowed wood. \$320. This is one of

Boys' Suit

like this, of corduroy, with an extra pair of knicker pants

\$10.00

Buy them for lasting wear—for school or "best." The extra pair of pants will give months of added wear. Ages 7 to 17 years.

Military Overcoats for Boys—\$12.50

All-wool—all splendidly made and smartly fashioned. Ages 4 to 10 years.

Navy Uniforms for Boys—Priced \$9.85

Regulation style—with broadfall, bar-door trousers; for boys from 3 to 8 years.

A. J. SAYLARD, CHECK PASSER, RUN TO EARTH

A. J. Saylor, declared by the police to be one of the cleverest swindlers in the country, who is alleged to have stolen \$100,000 from the United States and had competed in several national tournaments. One month ago he was admitted to the hospital to undergo an operation on his throat. He was preparing to leave when it was found necessary to perform a second operation for an abscess of the brain.

At Phoenix, Arizona, over the old trail of the daughter of a prominent Pasadena family, whose name is not revealed by the Burns agency. He will be returned to Bakersfield to stand trial for his alleged operations in the oil city.

Before leaving Oakland, suspicion being directed to him by the bank, he attempted to enlist the aid of the daughter of a prominent Oakland family, proposing marriage. The girl refused, he went to San Francisco where he is accused of having repeated his operations, merchants there, according to the police, having been swindled of an amount estimated at \$75,000. Saylor is then said to have gone to Los Angeles, where he posed as the son of Gall Horden, of condensed milk fame. A large number of checks were passed in that vicinity, which netted a \$4500 touring car and nearly \$15,000 in money.

He was arrested today while en route

Aviator Dies in Ontario Hospital

TORONTO, Ont., Sept. 6.—Lieutenant C. F. Touchard, an instructor in the royal air force at Camp Borden, died suddenly in a hospital here. He was a prominent tennis player in the United States and had competed in several national tournaments.

One month ago he was admitted to the hospital to undergo an operation on his throat. He was preparing to leave when it was found necessary to perform a second operation for an abscess of the brain.

At Phoenix, Arizona, over the old trail of the daughter of a prominent Pasadena family, whose name is not revealed by the Burns agency. He will be returned to Bakersfield to stand trial for his alleged operations in the oil city.

CENSUS WILL PRECEDE NEXT LIBERTY LOAN

Tribune Bureau
34 EAST SANTA CLARA
SAN JOSE, Sept. 6.—A complete census of the people of San Jose is to be undertaken by patriotic workers Tuesday as a preliminary step to launching the 10th Liberty Loan bond sales campaign. This work will be under the direction of the Santa Clara county war work council.

Terrence from St. Mark's church, with Rev. E. L. Parsons officiating.

Alameda Soldier Killed in Action

ALAMEDA, Sept. 6.—Walter J. Theus, Alameda soldier, was killed in action July 1. Word of the tragedy came to the Theus family last night. Theus was a member of the Second Engineers, Company A. He was drafted October, 1917, and after a month at Camp Lewis went to France with the 10th Engineers. He arrived in France December and was almost immediately ordered into action. Theus was a native of Medford, Oregon. He came to Alameda with his family seven years ago. Two brothers are now waiting to hear further details of the slaying of the young Alamedan. The Alameda city hall flag was half-masted today in honor of Theus.

A Magnificent Collection of Furs
Every Late Novelty. Popular Prices Prevail

It is the reason behind the price that counts in Clothes for Men

How does this apply in your case? Are you paying too much? Are you paying too little? Have you been getting value?

Is the fabric made for service? Will it stand the day-in-and-day-out wear that YOUR clothes are subjected to? For in these times of daily ascending costs, wear is a factor.

Is your suit styled to your liking? Does it fit as it should? Does it hold its shape? In short, is it a SATISFACTORY SUIT? That's what counts in clothes—today.

A Top-Quality Suit at \$35.00

Choose from hard and soft cassimeres and worsteds, from serges and tweeds, from mixtures and black tibets. You'll find your particular type. Your color, your pattern. You'll find real and lasting quality.

FRIDAY, SEPTEMBER 6, 1918.

AN ERA OF HARBOR BUILDING.

Exclusive of the Australian ports, the great harbors located on the shores of the Pacific ocean may be counted on the fingers of one's hands. They are San Francisco, Seattle, Yokohama, Nagasaki, Shanghai, Hong Kong and Manila. These ports are destined to handle practically all the foreign trade of the Pacific basin. The officials and business interests responsible for the prosperity of each have generally recognized the urgency of preparing for an unprecedented development in the commerce of this area. San Francisco Bay has done less than any of the others. As a consequence Seattle, Yokohama and Nagasaki, and Shanghai have gone ahead of this harbor in the volume of commerce handled. The port of Shanghai has recently started upon a new and comprehensive program of harbor development. The Whangpoo Conservancy Board, according to Consul M. F. Perkins, has just submitted a report embodying a plan to make a world harbor at Shanghai. It is recommended that an expenditure of over \$30,000,000 be made to convert the Whangpoo river into a lake whose shores will be one continuous line of docks and shipbuilding plants, with wharves that will handle in modern and economical manner the enormous commerce which China's recent advancement now makes certain. The following are some of the considerations which led the conservancy board to formulate the plan: The trade between Asia and other continents will in the immediate future increase enormously; the construction of the Panama canal insures the traffic on the Pacific and Indian oceans making great progress as compared with traffic on the Atlantic; it is expected that the world will no longer fail to obtain the co-operation of China in the development of intercourse on the ocean.

A question of paramount importance is therefore: To which harbor or harbors in Asia will the express traffic across the Pacific be directed? From a glance at the map, it may be concluded that this harbor can only be found in Japan, or on that part of the Chinese coast which faces Japan—probably in the vicinity of the Yangtze estuary. If a Japanese harbor becomes the terminus for express liners, the journey to the continent must be made by secondary ships. If, on the other hand, these liners proceed to the Chinese coast the sea journey is once and for all completed. If at a suitable point of the east coast of China a modern harbor is arranged, there is no doubt that this harbor will be frequented by even the greatest liners engaged in express traffic.

What economic value should be attached to the possibility of constructing such a harbor in immediate proximity to Shanghai it is difficult to say, but as a parallel case Hamburg may be mentioned. When the question of bringing the free harbor into immediate connection with the town was mooted, Hamburg did not hesitate to sacrifice a whole quarter of the town with 1,000 houses and inhabited by 24,000 people. It is obvious that it would be of paramount benefit to Shanghai if within its sphere or the limit of its natural extension could be situated one of the important centers of traffic of the world.

The resources of Shanghai in men, measures and money are comparable with those of any other city in China, and it would thus appear that there is every reason to believe that Shanghai should be able to secure for itself the future preponderance which a well placed and accessible Yangtze estuary port will attain.

The above is given as an illustration of the tendency of China to develop its trade facilities and resources, of the commercial statesmanship in east Asia which might be emulated with profit by the greatest natural harbor on the American coast of the Pacific. International commerce is the leading idea of the post-war program of every trading nation. Shall the communities around San Francisco Bay wait until China, through the modernization of Shanghai, shows what may be done with harbor advantages?

So far as the British army corps commanded by Generals Byng and Rawlinson are concerned

the famed Hindenburg line is merely an imaginary creature of German pretenses. They have gone far beyond the points it was supposed to mark without experiencing any change in temperature.

THE ARMY GROWS.

General March, chief of staff of the army, announces that at the end of August over 1,600,000 troops had been embarked for Europe. Of this number one million have been in France for at least two months or more. This has not been sufficient time to fit all of them for all tasks of modern warfare, but it had been ample to make them available in an emergency for offensive operations.

The offensive is the more simple of the arts of warfare and the one on which the American army lays first importance. Trench technique and defensive tactics to meet noxious gases, mortars, bomb-throwers and the whatnot of devilry requires a longer course and perfection may be attained only by actual experience on the front line.

But it is cheering to think that in the event the occasion demands it we have 1,000,000 men in France ready to join in pursuit of the Hun. Should the more seasoned British and French troops and the older American divisions which have finished their instructions make a breach in the enemy's line the whole American million will be on hand for Field Marshal Foch to use as he deems best.

ANXIETY PASSING.

"I have in my possession the needs of the European Allies for meat. We can furnish this whole volume in pork alone. We can summarize our present position by stating that within the next twelve months we can, with less pressure of saving upon our people, export 18,000,000 tons if necessary, and to this Canada will add 3,000,000 tons. We can say emphatically that all anxiety as to the great essentials of food is now past."—Mr. Herbert Hoover in London speech.

"This is a very modest statement of a great achievement. The Food Administration has been a brilliant success. The voluntary sacrifices of our people under its leadership have full reward in the profound relief that their savings now give to our heroic comrades overseas."—The World's Work Magazine.

These two statements impress THE TRIBUNE telling more of the story of food conservation, regulation and distribution than has yet been condensed in so brief a space. They do not tell all the inspiring story by any means, but they give essential facts. The great essentials of food are now assured in adequate quantity. As to some of the staples there must still be saving, in sugar and wheat products, for instance. But the crucial period has been passed and it can be said with confidence that lack of food and of food distribution will not stand in the way of victory.

Another phase of the story of the last year which cannot be adequately told here, but which every loyal citizen has had a part in producing, is the voluntary, generally cheerful, co-operation of the American people in the food economy campaign. By their self-discipline and denial they have justified Mr. Hoover's confidence that a democracy can voluntarily do a thing efficiently.

It is encouraging to the people to learn that their efforts are showing results. It will inspire them to further acquiescence in Mr. Hoover's able leadership.

SPEND NOW TO SAVE LATER.

Road maintenance must go on uninterruptedly or the taxpayers of the country will have to pay an enormous bill for the restoration of the highways after the war.

Something like a quarter of a century ago, systematic, intelligent road improvement was commenced by a few of the states in the northeastern part of the country. Today there is a highway department in practically every State, and in most of the States the department is one of the major divisions of the government. During this era of road improvement the annual expenditure throughout the nation has grown from an insignificant sum to a total well over a quarter of a billion dollars.

To date probably not more than 12½ percent of the country's road mileage has been surfaced. Considered merely as a percentage, this showing is not encouraging, but when it is remembered that this one-eighth means an actual mileage of something over 300,000, the magnitude of the work accomplished is better appreciated. Another fact that must be taken into consideration is that a large majority of the traffic of the country is carried on a small proportion of the total mileage and the greater part of the work of improvement has been done on these more important highways.

Some of the money spent for road betterment has been wasted. Some of it has been used for permanent work, the amount involved representing an investment that cannot be lost. A very large proportion of the total expenditure has been used for the construction of pavements and surfaces of varying durability and of different needs as to maintenance. The money they represent is an investment also, but one that can and will be lost if the upkeep of the roads is neglected.

The country's roads are worth billions of dollars, even if nothing more than their first cost is taken into account. Their present value, in terms of service rendered, is literally incalculable, for without them every activity would have to cease.

The successful prosecution of the war is the chief business of the American people today. But that doesn't mean that every American should be fighting or working in a munition plant or on a farm. There are countless other activities that are contributory to the three obvious essentials, and every one of them in turn is absolutely dependent upon transportation. The things men use are seldom used where they are produced; they have to be carried over the roads, over the railroads, up and down rivers, through canals, and across oceans. Many of them are carried by water; most of them are carried by rail. Practically all of them are carried by road, sometimes once, often at least twice.

The nation's highway system is the foundation of its whole vast and complicated machinery of transportation. The public highways are indispensable and they must be kept in condition unless all the work we have done is to be left undone. Money must be spent before us is to be left undone. Money must be spent and labor and materials must be used—Editorial from Good Roads, New York, issue of July 13, 1918.

NOTES and COMMENT

Referring to the latest Chicago dynamiting, which was characterized daily I. W. W., there is likely to be a sentiment that more decided means of extrication will now be necessary than any heretofore followed.

The discontinuance of the scheme to collect money here to rebuild French villages is simply good sense. The country is addressing itself to the task of making it so that savages cannot devastate any more towns, and until that shall have been fully achieved restoration may well be held in abeyance.

Lenine's life is reported to hang by a thread. There may be a willingness among civilized people for the thread to hold, but there are no signs of preparation for extensive mourning in case it doesn't.

The Crown Prince's idea of victory, we are informed, is "Hold our own and not let ourselves be conquered." The idea, not entirely new in warfare, appears to be proving difficult to carry out.

The German government, reports being accepted on their face value, is hard on widows but sentimental as to girls. It has forbidden the former to remarry, so that the latter may have their chance at the surviving men, aside from conducting a world war the German government appears to be qualifying to run a joke paper.

San Diego bites its thumb at Los Angeles via the Union after this fashion: "E. L. Rockwood, who used to tame wildcats when he lived in San Diego and who was a well-known and eloquent member of the old 'Round Table' at Crane's restaurant, was in town yesterday. Business forces him to live in Los Angeles, otherwise, he is about the same as ever."

The panacea for the cure of the direct primary law that will be unloaded on the next Legislature promise to be many. It may require some discrimination to see that consideration of the multiplicity of cures does not lead to an aggravation of the affliction.

There is always something to take the joy out of the local orchardist's life. Now it is the roller leaf among the apples. Where all the pests come from it would be interesting to know.

In the consideration of the Oakland Water Front Company's application for a reduction of the Alameda assessment of its marsh holdings it came out that the Federal government paid \$8000 an acre for the land on which the new ship yard is being established. This is a neat figure for this class of real estate.

The Council of Defense has taken the matter in hand and organized a State-wide committee to see that profiteering in war charities is not indulged in. Attention has frequently been called to the favorable conditions for pulling off fake so-called war entertainments, and no doubt there has been a great deal of that sort of thing.

The Crown Prince, pretending that Germany did not want the war, says that no time could have been more unfavorable to start it than August, 1914. Very often things look different with the lapse of four years. There is evidence that the Huns thought that things looked propitious then.

SPIRIT OF THE STATE PRESS

It has been suggested that the only way to settle the issue between the duck and rice farmers will be to put oil over the swamps where the ducks sleep and thus make them unable to fly. The owners of duck preserves will then have to feed their own ducks and the farmer can keep his rice.—Sacramento Union.

The frequent calls on the community for aid in extinguishing fires at Colmahast and other mountain and foothill locations points to the continued enlargement of the camper life. The campers appear to be incorrigible.—Chico Enterprise.

After all, we don't mind prices going up as long as the allies are going forward. It's worth it. And his licking about the same time the Kaiser does.—Woodland Mail.

Coyotes this season have been very destructive to sheep, especially on the borders of the tule basin south of Long Bridge. There is evidently a colony of these varmints in the brush there, for they come out on the plains even in daylight and kill sheep. Grant Davis lost thirteen lambs recently. They also come out on the Wadsworth Hoke ranges and kill the sheep unless the same are corralled or carefully watched by the herder.—Sutter Farmer.

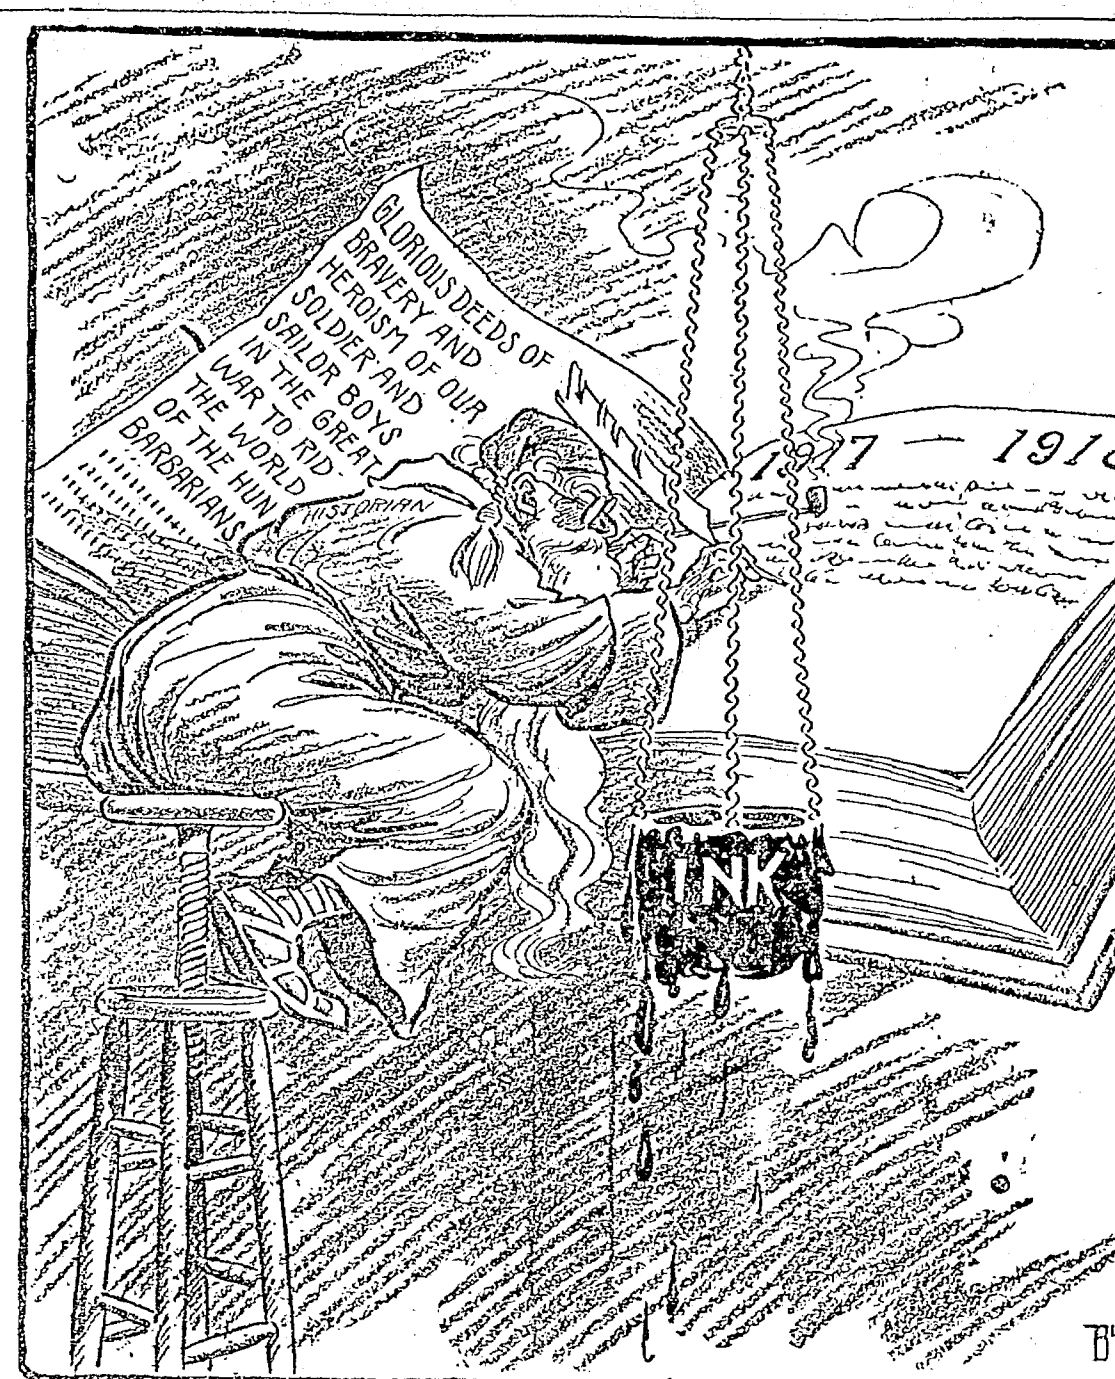

We wouldn't give much for Hawson's chances to be elected congressman. When the Democrats of the district come to realize that his legislative folly is the occasion of the present situation by which the party stands in danger of losing its status as a going concern, the vote he will get you can put in your eye. The next congressman from this district will be H. E. Barbour.—Visalia Delta.

The board of public works has approved the specifications for an electric passenger elevator at the La Honda station in the Twin Peaks tunnel. Bids for the construction of the elevator will be received on September 11.—San Francisco Journal of Commerce.

THIS DAY IN THE WAR

Sept. 6, 1917.—German fleet appears in Gulf of Tigua.
Sept. 6, 1918.—Germans make heavy attacks on Somme front.
Sept. 6, 1918.—Forty French airplanes destroyed in battle.
Sept. 6, 1918.—John French, in report on first operations of the British in the war, admits loss of 15,000 men.

THE GREATEST HISTORY EVER WRITTEN

WEATHER REPORT

Forecast.

Oakland and vicinity: Cloudy or foggy tonight and in the morning, fair during the day Saturday; gentle westerly winds.

Northern and Southern California: Fair, except cloudy or foggy tonight and in the morning near the coast; gentle westerly winds.

Santa Clara and San Joaquin valleys: Fair; light southerly winds.

Conditions.

A trough of low pressure over the interior of California, and Oregon, causing cloudy or foggy weather along the coast and fair weather over the interior of the Pacific slope. An area of high pressure covers the country from the Rocky to the Allegheny mountains and is moving slowly eastward. It caused light rain in the southern portion of the Rocky mountains, plains states, Minnesota and Ohio valley, with heavy rains near New Orleans. It is cooler in the Ohio valley and on the west coast.

Conditions are favorable for fair weather in this district except cloudy or foggy tonight and in the morning along the coast.

G. H. WILLSON, Forecaster.

DEMOTION OF GERMANY.

To the Editor of The Tribune:

I am so delighted with your editorial, "The Future of Germany," in today's issue that I can't forego expressing to you my thanks for the same. It touches about every vital point of the problem that could be expected in no short a compass as an editorial, and elucidates each point so fairly and logically that I am proud of it. I have been looking for such an editorial for some time and now, that you have given us it as a text to meditate upon, we can go ahead, talk and argue the problem among our fellow beings, cultivating our minds to reason these vital subjects out in a calm, deliberate and rational manner. I trust you will give us more such editorials in the near future, for I think that such perplexing subjects should be gravely thought out. A grand editorial, indeed; give us more. R. FISHER.

Niles, California, Sept. 2.

THROUGH FOREIGN EYES.

To the Editor of The Tribune:

Mr. Horace Edwards, with you at the fountain head of knowledge, make it clear to an ignorant foreigner the things which do mostly muddle and mystify?

One—Why is the protection afforded to the prizefighters when your young boys even are taken from their homes? Is a prizefighter of a higher or a lower character in this bewildering land?

Two—Why is it by your unpardonable shiftings and constabulary permitted that "long wars" wage in your streets over a slave girl? Are there slaves here? Can one be bought and where. I have much want of a domestic.

In much maze of perplexment, an obscure and unworthy foreigner.

BENGALISE.

Berkeley, September 4.

TODAY 20 YEARS AGO

Du Ray Smith and Miss Lydia Decker, both of this city, were elected first vice-president and second vice-president, respectively, of the freshman class at the University of California.

It was announced that the pumping plant of the Oakland Water company, which for years was situated at Twenty-eighth and Myrtle streets, would be discontinued and a new plant established off Oakland avenue.

T. H. Herlihy, one of the leaders of the Prohibition party in California, had a narrow escape from serious injury when he missed his footing in attempting to board a moving narrow gauge train at Encinal Park station to catch up with his runaway horse. He was dragged along by the train for some distance.

A largely attended meeting of the Fifth Ward Republican club was held in Grand Army hall, on Thirtieth street near Broadway. President Taylor occupied the chair and James B. Dean officiated as secretary.

THE JESTER

Poor Results.

Two men were once talking over their respective sons' careers at college when one remarked:

"Well, I feel like saying, as did Aaron in the wilderness, 'Behold I poured in gold and there came out a calf.'"

AMERICAN LAD ON DESTROYER IS WELL FED

AN IRISH PORT, Sept. 6.—The American boys who are manning the destroyers at this base are fed well and have developed appetites that have won the admiration of the officers of the fleet. At the navy recreation center ashore the restaurant vies with the theater in popularity, notwithstanding the men get plenty of good food on the destroyers and tenders in port.

After doing justice to a hearty meal aboard ship early in the evening scores of them may be seen "eating a little something" usually a steak or eggs, before the show at 8 o'clock and after the performance many of them eat again before returning to their ships.

The old army tale of "beans, beans, beans, morning, noon and night" does not fit the destroyer menu when in port for there is plenty of good meat and green stuff from the country-side. But now and then they have beans, not the soupy white-looking kind, but brown luscious ones with plenty of molasses cooked with them.

It is not always smooth sailing in the food line on the destroyers, however. In rough weather these little craft pitch and roll until it is impossible to operate a galley or even to sit in one place long enough to eat. Canned meat and biscuits are provided for such emergencies, but there are times when even these prepared foods cannot be handled.

During one prolonged period of bad weather one sailor had missed meals and was very hungry. He managed to get hold of a can of tomato soup and a loaf of bread, but never enjoyed them. While making a dangerous trip on deck with his food in one hand and grasping a cable with the other, a terrific wave struck the ship heaving it far to one side. Away went the can and loaf as the sailor seized the cable with both hands to save himself and then proceeded to his station still hungry.

Big Show to Be Offered for Union Men at T. & D. Sunday

Mayor John L. Davie, recently honored by election as an honorary member of the Shipyard Laborers' Union, will present to the shipyard workers Sunday morning at the T. & D. theater The TRIBUNE trophy awarded the shipbuilders as the organization best exemplifying the spirit of the labor day parade. The presentation will be made at a big show to be given Sunday

SLACKER RAID SYSTEM HERE NOT CHANGED

Defense of the "slacker raid" system as it has been conducted in Oakland and vicinity during the last ten days has been set up by the authorities here. The plan is to work under the direction of the department of justice. The present plans for continued activity will not be laid aside unless definite instructions are received from Washington, it was stated.

While New York City has been aroused by the arrest of more than 10,000 men of draft age, it is in order to sift the "slackers" from the eligible, the probe into the circumstances of the wholesale raid has not so far reached the Pacific coast. The department of justice said today.

Moore Shipyard Workers to Dance

The Moore Shipyard social committee has arranged for a dance at Wikman Hall, Pacific building, sixteenth and Jefferson streets, tomorrow evening. The proceeds will be turned over to the band to help buy music and uniforms.

The committee has arranged for good music. Refreshments will be free. Admission will be 50 cents a couple and extra ladies free. The committee in charge is: Harry Gross, chairman; Fritz Nelson, floor manager; Fred Nodder, George Brittingham, assistant manager.

Call for Helpers Raised by Cannery

Marcus A. Lee, farm adviser for Alameda county, appealed to the Women's Land Army today, asking them to help save the tomato crop.

The Shuckel Company, of Niles, offer work for the next three months to women, children or whole families. The company is willing to erect comfortable tents with floors and provide all the necessities for camp life.

Oakland Minute- Men Are Forming

The Berkeley and Albany companies of the Alameda County Minute Men held their regular monthly battalion drill, Wednesday evening. Three hundred men were present and showed a marked improvement in their work. Colonel Pape complimenting them highly.

The ranks of the Minute Men are rapidly being filled by those in the new draft age, these men realizing that the training received will help them later in case they are inducted into the army.

Oakland has now a company formed, and it will soon be taken into the regiment and will be known as Company F.

The Minute Men have put out a neat folder, explaining the objects of the organization to those who desire such information.

RAY BAKER MAY GET BRITISH POST

Raymond Baker of Oakland is being considered by President Wilson for appointment as ambassador to England to succeed Walter Hines Page, whose resignation has been offered because of ill health, according to word received today from Washington. The former Oakland man is looked upon with favor in the high circles where his name has been suggested, having back of him considerable diplomatic experience. His rise in public life has been phenomenal since he was a deputy in one of the Alameda county offices.

CLASS 1 MEN MUST GIVE UP OFFICE JOBS

WASHINGTON, Sept. 6.—Secretary Baker has ordered the chief of each bureau in the war department to replace by December 31 all men within the draft ages who would be classified in class 1, now assigned to duty in Washington or in war department branches elsewhere, with men physically disqualified for general military service.

Chums Die When Hit at Same Time

ST. LOUIS, Mo., Sept. 6.—Charles G. Peire, of the American Red Cross, in a letter from France to a friend in this city, tells of the deaths of two American boys who enlisted together, bunked together, were hit by the same shell and died within a half hour of each other.

That babe of yours---

Is he strong and rosy?
Does he sleep well?
Does he eat heartily?
Is he playful and happy?

Is he an "outdoor baby"?

This California climate, sunshine, fog and all is as wholesome for babies as their food and sleep—in fact, it helps to regulate both. Keep the baby outdoors hours each day if you want him bright-eyed and healthy. He doesn't need to be wheeled about if you haven't time, but put his carriage in a sheltered spot and let him sleep there, or sit in it and watch the automobiles go by. He'll be happy for hours, and gaining all the time.

Many babies come to Breuner's to be fitted to their carriages, for mothers find here many styles and prices to choose from. Reed carriages which are best for young babies, because they make such cozy beds, come in natural, French gray and ivory finish, and are priced upward from

morning, at 10:30 o'clock, in honor of the union men, when the shipbuilders and all union men of Oakland, with their friends and families, will be invited to be guests of The TRIBUNE and the shipbuilders. The great size of the theater, third largest in the city, and dedicated to the entertainment of the masses, makes an affair of this size possible.

HOW TO GET TICKETS.

Tickets are being distributed at the Shipyard Workers' Union offices in the Labor Temple at an early hour, and can also be obtained by union men and their families at The TRIBUNE business office, Thirteenth and Franklin streets.

The presentation of the trophy will be marked by special significance. It is a public recognition, in effect, of the war work of the shipbuilders—a work to which the American government has officially paid tribute. Mayor Davie will present the trophy on behalf of The TRIBUNE to President E. C. Carroll of the union, who will receive it, in the organization's name.

A big special show for the shipbuilders will be an additional feature to the ceremony. Alexander Bevan, famous grand opera singer and teacher, will appear to lead the union men in community song. Miss Emma de Liere and Rush Ford will also sing, and first-run war films will be shown in their initial production in Oakland for the union men.

The shipbuilders will assemble at the Labor Temple at 10 o'clock Sunday morning and will march in a body to the theater, escorted by the Union Iron Works band. Much interest is already being evidenced in the war pictures to be shown, these including the ninth official government pictures, declared to show Uncle Sam's men in action rather than any pictures yet presented.

DANCERS TO BE FEATURE.

Another big headline feature of the program will be the appearance of the celebrated Anita Peters Wright dancers. These wonderful dancers, who are appearing preliminary to the establishment of a rhythmic dancing school by Mrs. Wright at the Hotel Oakland, where a large number of Oakland girls are to learn the art, will offer some of the dances that have made the theater-goers of the city rave.

The Wright dancers are known throughout the nation. Among the dancing beauties will be Lorraine Beaumont, known in theatrical circles as one of the most promising of the younger dancers.

The program as arranged by the committee for the day is as follows:

1. "Star Spangled Banner."
2. "Triumph March" from "Aida," Allen Lane.
3. "Enema," Liers, singing.
4. "Women of the House Land."
5. "Popular numbers—"We'll All Build a Rainbow in the Sky," "At the Hip-Parade," "The Bluebird."
6. "Rush Ford, eminent baritone."
7. "Anta Peters Wright's rhythmic dancers."
8. "My Own United States," Allen Lane.
9. "Alexander Bevan, community singing."
10. "Selections by shipyard band."
11. Presentation of the TRIBUNE trophy by Mayor Davie by management of The TRIBUNE, and presentation of trophy by Mayor Davie to President E. C. Carroll of Shipyard laborers' local, No. 15430, response by President Carroll.
12. Ninth official war pictures.
13. Exit march, "We Don't Want the Bacon, What We Want is a Piece of the Rhine."

OFFICIAL CALL ISSUED.

The following call to shipyard laborers to turn out for the ceremony was issued today by President Carroll of the union:

"Turn out, Shipyard Laborers!"

All members of the shipyard laborers' local 15430, are requested to appear at the Labor Temple with parade caps on Sunday, September 8, promptly at 10 a. m., to march to the T. & D. theater, where the trophy offered by The TRIBUNE for the best display illustrative of labor's part in the great war shown in the big labor day parade will be presented to this union. All other shipyard workers are cordially invited, together with their families, to join us in this public recognition of the efforts of the men who build ships

for the nation.

EX-OAKLANDERS THERE

In the New York raid the authorities found twenty former Oakland residents who had failed to register. It was stated today, and reports are still coming in. That the method used by the department, through the police neutrality bureau under direction of Captain Thorvald Breavn, is the only successful way to handle the situation, is stated by Chief of Police J. H. Nodderman.

"It is unfortunate that the government is forced to adopt these methods to handle ungrateful men," said an agent of the department of justice. "But there is no other way to get the slackers. The slight inconvenience met with by the boys in the draft age is insignificant as compared to the results already obtained. And we have only started on the round-up. After September 12 the work will be more difficult. It is realized. Every effort has been made in recent round-ups to prevent hardship from falling upon men who complied with the draft laws. But in order to reach the slacker it is necessary to look over the credentials of every man."

SHOULD CARRY CREDENTIALS

"If those who have complied with the law will carry their credentials with them at all times they will have no difficulty in promptly convincing the officers that they should not be kept or put to any further inconvenience."

Besides New York, other large eastern cities, Boston and Chicago, have experienced similar raids. Hundreds of slackers have been inducted into the army.

In the raid at Neptune beach last Sunday the authorities, with the assistance of soldiers and sailors, rounded up 2000 men of whom 300 were held for investigation. The number finally slimmed down to about seventy, and a total of forty slackers was picked from that number.

According to the officials in charge of the campaign, the majority of the slackers taken were men who had been drafted about the country since June 5, 1917, successfully evading apprehension despite the fact that they had no registration cards. In other cases it is stated that after registering the subjects failed to bother any further about their status, replying that their whereabouts in their home draft districts were on the boards in the cities they happened to be, nor filling out questionnaires.

Reconstruction Work
Started in Schools

The first work in the task Oakland is to assume in the reconstruction of soldiers wounded at the front has been started by the Oakland School Department. Thirty blind students are being taught typewriting at the Technical high school, the class being designed to train teachers who will later be given the work of equipping blinded soldiers to earn their own livings.

Another class has been started to train "Reconstruction Aides," or assistants to reconstruction surgeons. The students are being trained in massage work and other mechanical treatments by which injured men are reconstructed if possible. There will be a heavy demand for these when reconstruction hospitals are running throughout the country, according to Government experts. Principal R. R. Stuart of the Technical night school is in charge of the work.

Highwayman Shoots McCool in Hand

Explaining that he had been in an encounter with a highwayman who held him up on the Webster street bridge at midnight last night, Clyde McCool, 19, of 731 Twenty-second street, appeared at the Reformatory hospital for treatment for a bullet wound in his left hand. He told Dr. Lee E. Smith who attended him that while crossing the bridge at the midnight hour a tall man confronted him and demanded money. McCool was accompanied by a friend named Herman. They struggled with the stranger, who fired his revolver, the bullet going through McCool's hand. The highwayman fled.

The contributing part toward winning the war.

(Signed) E. C. CARROLL,
"President Shipyard Laborers' Union."

A. E. HANSEN, Secretary.

Why Wait Until Mid Season to Choose Your Winter Coat?

The woman who chooses her coat now will have a double advantage. The choice of colors and styles is the largest

SOCIETY

A smart affair of the week was the Associated Charities dinner held last evening in the Hotel Oakland and attended by three hundred guests, a large number of whom made up the social sets of the city. Among those for whom places were laid last evening were Mr. and Mrs. Wallace Alexander, Mr. and Mrs. Stanley Moore, Mr. and Mrs. Harrison Robinson, Mrs. Lucie Stevens, Dr. and Mrs. Leggett of the University of California, Judge and Mrs. Everett J. Brown, Mr. and Mrs. Herbert Hamilton Brown, Dr. and Mrs. Francis Shook, Mrs. Cleveland Baker, Mr. and Mrs. Joseph Russell Knowland, Mrs. A. A. Moore, Jr., Mrs. J. P. Dunn, Mrs. F. F. Fenton, Mr. and Mrs. Fred M. Hunter, A. S. Kelly, Mr. and Mrs. Ben Peniston, Mrs. Helen Peniston, Mr. and Mrs. Thomas Mitchell Potter, Mr. and Mrs. Harris Cobert Capwell, Mr. and Mrs. A. S. Lavenson, Mr. and Mrs. Frederick C. Turner, Mr. and Mrs. Aaron Schlosser, Mr. and Mrs. Robert Leet, Mr. and Mrs. Samuel M. Marks, and Misses Christie Taffel, Florence Brown and Ethel Moore.

Wednesday afternoon of next week Miss Cleo Passey, whose engagement to Lieutenant John Martin was announced last week, is to be the guest of honor at a luncheon at which her sister, Mrs. Robert McMurray, hostess, entertaining at her home across the bay.

Lieutenant Martin is with the Aerial Observation Corps and one of the betrothal was a surprise to even closest friends of the bride's family.

Miss Edith Adams, daughter of Mrs. Edson P. Adams, leaves tonight for a fortnight for Miss Bennett's exclusive school for young ladies in New York, where her sister received her education. Miss Adams during the vacation months has given the major part of her time to serving in the Red Cross Shop with her mother.

Mrs. A. S. Coriell has gone to Lake Tahoe for a bit of recreation, intending to spend a week at one of the attractive resorts on the lake shore.

Carroll Spencer, who is the son of

Why Be Fat?

Become Slim This Summer

Have you heard about the new system for weight reduction? You may get tired of all you need. There is no tedious exercising. Take a little oil of korein at mealtimes and when retiring; also follow the simple, clear directions. A loss of weight, ten to sixty pounds (whatever you need to lose), can be expected by this safe and pleasant system of fat reduction. At the drugists get a small box of oil of korein capsules, and start at once. Be of normal size, with good figure and attractive appearance, agile, quick-witted, healthier and more efficient. By reducing weight now you are likely to avoid one or more diseases, such as weakness, surfeit, indigestion, etc., and to add years to your life. Advertisement.

WOMEN of ALAMEDA COUNTY AND THEIR WORK

By GEORGIA C. BORDWELL

SAVE THE TOMATOES! Here

is a sure and practical way for

war work.

The call has come from the Cal-

ifornia canneries, particularly from

the Oakland canneries. Out at the

United Canneries Company, at the

foot of Eighty-fifth avenue, quan-

tities of tomatoes are going to waste

because of a scarcity of labor.

Tomatoes are especially needed

by the army. Doctors pronounce

them one of the best articles of diet

to prevent scurvy, and the Council

of Defense women's committee

sues a plea for the women and children

to help save this food, so necessary

for the fighting man.

The canneries will be glad to get

the assistance of the children after

school hours. Any information can

be had at 420 Central Bank build-

ing, but the call is so urgent work-

ers are needed quickly that can-

neries have better apply to the can-

neries themselves.

Adelphi Club, Alameda, the

nucleus of all club and social life

in the Encinal city, opened its doors

for its first general meeting this

season yesterday afternoon.

Mrs. Wallace Alexander, the pres-

ident, has arranged a series of meet-

ings in honor of our allies.

Yesterday's program was divided

into two parts, the first consisting

of a group of old country songs and

dances, English, Welsh and Scotch,

contributed by Miss Jane Vickers,

Mrs. Wallace Alexander, Miss Mc-

Nicholson, Mrs. Maurice Johnson,

Miss Avis Thorpe, Miss Beatrice

Fish, Miss Mildred Anderson and

Godfrey Price.

The second part of the department

of English, University of California,

followed the program of music with

an address on "Great Britain—the

Stronghold of Democracy" by

The hostesses for the day were

Mrs. Wallace Alexander, who also ar-

ranged the charming program, and

Mrs. Robert McMurray, who has

been a member of the club since

in the song and story of Scotland

and England, so that it was very ap-

propriate that they should have

been the first to give in honor of

Great Britain.

Tuesday, September 10, is the date

for the first meeting of the Gant

School Parent-Teachers' Association.

Mrs. E. E. Sears, president. This

will be practically the first meeting

of the new organization, which was

formed just previous to the sum-

mer vacation.

H. C. Petray, principal of the

school, recognizing the value of the

close cooperation of parents and

teachers in the development of the

child, urges all mothers in the dis-

trict to interest themselves in the

new club.

As has been announced, the Oak-

land women's committee, Council

of Defense, wishes to make

known to the public the names of

all the heroes that are entitled to

be engraved upon a new

great roll of honor. In order that

this may not be gone over and

over again, the following

letter is addressed to the public:

"The Oakland women's committee,

Council of Defense, wishes to make

known to the public the names of

all the heroes that are entitled to

be engraved upon a new

great roll of honor. In order that

WOMEN of ALAMEDA COUNTY AND THEIR WORK

By GEORGIA C. BORDWELL

SAVE THE TOMATOES! Here

is a sure and practical way for

war work.

The call has come from the Cal-

ifornia canneries, particularly from

the Oakland canneries. Out at the

United Canneries Company, at the

foot of Eighty-fifth avenue, quan-

tities of tomatoes are going to waste

because of a scarcity of labor.

Tomatoes are especially needed

by the army. Doctors pronounce

them one of the best articles of diet

to prevent scurvy, and the Council

of Defense women's committee

sues a plea for the women and children

to help save this food, so necessary

for the fighting man.

The canneries will be glad to get

the assistance of the children after

school hours. Any information can

be had at 420 Central Bank build-

ing, but the call is so urgent work-

ers are needed quickly that can-

neries have better apply to the can-

neries themselves.

Adelphi Club, Alameda, the

nucleus of all club and social life

in the Encinal city, opened its doors

for its first general meeting this

season yesterday afternoon.

Mrs. Wallace Alexander, the pres-

ident, has arranged a series of meet-

ings in honor of our allies.

Yesterday's program was divided

into two parts, the first consisting

of a group of old country songs and

dances, English, Welsh and Scotch,

contributed by Miss Jane Vickers,

Mrs. Wallace Alexander, Miss Mc-

Nicholson, Mrs. Maurice Johnson,

Miss Avis Thorpe, Miss Beatrice

Fish, Miss Mildred Anderson and

Godfrey Price.

The second part of the department

of English, University of California,

followed the program of music with

an address on "Great Britain—the

Stronghold of Democracy" by

The hostesses for the day were

Missouri Boys

Manufacturers of

PEANUT BUTTER

Some reasons why we make a far superior Butter than any
other:

- 1—We are the originators of Peanut Butter in Oak-
land with ten years' experience.
- 2—By buying direct we save the brokers' commission
of 5%.
- 3—We do not pack for shipping and save 5%.
- 4—We do not wholesale, so we save 10%.
- 5—We do not deliver and have no credit accounts,
which is a saving of 5%.
- 6—The retail grocer gets none of our butter to sell, so
we save his 25%.

We save these unnecessary expenses.

We roast, shell, grind and churn a food product right before
your eyes and produce a quality of Peanut Butter that is as
tonishing compared with other brands.

The Price is 30c a pound

UNCONSCIOUS, HE GUIDES HIS PLANE

By NEWTON C. PARKE,
International Service Staff
Correspondent.WITH THE AMERICAN ARMY
IN FRANCE, Sept. 6.—Unconscious
from a bullet wound in the head,
Lieutenant John Hueval of Mo-
bile, Ala., dropped more than two
miles in gliding flight in a runaway
airplane with a dead observer in
the seat behind him. By the barest
luck Van Hueval regained conscious-
ness and made a safe landing.The incident occurred on the
morning of July 16, when Van Hue-
val, with Lieutenant F. K. Hirth of
Toledo, Ohio, were on a photograph-
ing mission over the enemy lines on
the Toul front.
They were attacked by two Boche
planes, which closed in with the Ger-
man machine gunners rapidly firing.
A bullet penetrated Hueval's brain,
killing him instantly. Another
wounded Van Hueval.
The rapid rush of the air restored
Van Hueval to consciousness. When
he came to he discovered the plane
sliding rapidly downward. With a
great effort the Mobile man righted
it about 100 yards from the ground.
Van Hueval landed a short dis-
tance within our lines, collapsing as
the machine grounded. He is now
recovering.WOMAN ARRESTED.
SAN FRANCISCO, Sept. 5.—Jo-
hanna M. Powell, wife of W.
Powell, prominent Chico merchant,
was arrested late last night on a Fed-
eral warrant charging sedition re-
marks and released on bail today by
Commissioner Krull on bonds of
\$1000 for a hearing tomorrow.PLACER FOLK TO RALLY.
Former residents of Placer county
will hold a reunion at Mosswood
Park, Sunday. A program suitable to
the occasion will be held. All Placer-
ites are invited.

RED CROSS SHOP AUCTION TO BE HELD WEEKLY

The auction held at 4 o'clock last
Saturday at the Red Cross Shop, 519
Thirteenth street, proved so satis-
factory that it has been decided to
hold one regularly every Saturday
at the same hour.
Various articles that have been
greatly admired throughout the
week, but which have remained in
stock, will be put up, and Mysel &
Mysel, auctioneers, will conduct a
short and snappy sale.
The auctioneers volunteer their
services, the profit to the Red Cross
entirely rests with the size of the
audience.
Tomorrow attractive pieces of
bric-a-brac for household decora-
tion will be offered, including mar-
ble and bronze figurines and pic-
tures.

Government Asked to Assist Miners

SPOKANE, Wash., Sept. 6.—Spon-
sors asking government aid to pro-
ducers of gold, to meet increased cost
of production were adopted at the ses-
sion of a conference of mining men rep-
resenting six western states, Alaska
and British Columbia, called by the
Northwest Mining Association.
Besides government bounty on gold
the resolutions ask that priorities be
enforced on mining machinery, equip-
ment and supplies and that pre-war
freight charges as to these articles be
put into effect; that labor be assigned
by the government to gold producing
mines; that motor truck roads and
trails be built to producing and prom-
ising gold mines, and that financial aid
be extended by the government to gold
miners approved by special examiners.

CITY SELLS PIPE

VALLEJO, Sept. 6.—The city of
Vallejo has disposed of the first lot
of old pipe that is being salvaged
from the abandoned pipe lines be-
tween Green Valley and the Elgin
Hill reservoirs and as a result
over \$10,000 in cash will be paid
into the city treasury in a short
time.

CIRCUS PARADE OFF; BIG SHOW ON

The crowds were there hours before
the time, and the kids fluttered their
gay balloons and talked of the ele-
phants and the giraffes and the lions,
but there was no circus parade this
morning. However, it was not the
circus' fault. They wanted to parade,
but something happened. The circus
got lost. The half that arrived in Oak-
land waited until the last minute the
half that was held up somewhere on
the road. Even youngsters who have
suffered disappointment know that in
war times everything does not run on
schedule. When they went quiet-
ly home they realized that it was the
part of patriotism.
But there was a circus this after-
noon just the same. To be sure the
performance began late, but it was just
as long and just as good and just as big
for all that. Tonight everything will
be in running order. At 8 o'clock the
program will start off with the brilliant
pageant descriptive of the story of
Aladdin and his wonderful lamp. Bears
on rollers, walking tight ropes and rid-
ing bikes, troupes of acrobats thrilling
the earth peoples, dogs that do splendid
stunts, the Italian indiget Gaingoli,
Lupera Perea, the human meteor, ele-
phants, horses and ponies and the an-
imals of the jungle, will make the Bar-
num program tonight just about the
best which has been offered kiddies
and grown ups in many a moon.

BETTER CLASS OF AUSTRIANS BEG FOR FOOD

PARIS, Sept. 6.—Hundreds of starving Austrians in the capital city of Vienna recently surrounded a train on which a party of Rumanians was traveling to France and begged pitifully for bread, according to the Rumanians, who have now arrived here.

The party asking for food gathered about the train in the blitting quarter of Vienna, where some of the most well-to-do people of Vienna live, said Captain R. Rosetti of the Rumanian army. They told the Rumanians that turnips, beets and potatoes constitute almost the only food of a large part of the population of Austria.

Rail Employees Are Raised Million Will Be Benefited

WASHINGTON, Sept. 6.—Nearly a million railroad employees, including clerks, track laborers and maintenance men, are to receive wage increases of \$1 a day or 12 cents an hour, over the pay they received last January 1, under a wage order issued by Director General McAdoo. Advances are effective as of September 1.

This order, affecting half the railroad men in the United States and adding approximately \$150,000,000 to the annual pay roll in calculations of labor representatives, represents the second largest aggregate wage increase ever granted in American industrial history. It is supplementary to the general railroad wage order issued nearly four months ago, providing for about \$200,000,000 increase, and, for the classes of employees affected, it supplants provisions of that order.

Most of the employees covered by the new order have made considerably less than \$100 a month, and the voluntary increase was decided on by the director-general after investigation by his advisory board of railroad wages and working conditions of the way of men doing similar work in other industries.

The order specified that eight hours is to be considered the basic day, but overtime up to ten hours is to be paid

pro rata, with one and one-half the regular rate for overtime past the ten hours.

PROMOTION RULES MADE.

Specific rules are laid down for the promotion of employees on the basis of merit and seniority. Other regulations forbidding dismissal of employees without cause and providing for hearing on appeal resemble the rules now in effect under government civil service.

Thousands of women clerks employed by the railroads are to receive the same increase as their male counterparts. The new minimum rate for each class, as follows:

Track laborers, 28 cents an hour, with maximum of 40 cents an hour.

Those doing clerical work of any description, including clerks, checkers, baggage and parcel room employees, train and engine crew callers, and station agents, \$1.00 a month, with maximum of 40 cents an hour.

Those doing clerical work of any description, including clerks, checkers, baggage and parcel room employees, train and engine crew callers, and station agents, \$1.00 a month, with maximum of 40 cents an hour.

Those doing clerical work of any description, including clerks, checkers, baggage and parcel room employees, train and engine crew callers, and station agents, \$1.00 a month, with maximum of 40 cents an hour.

ALL IS READY FOR BIG TOUR TO YOSEMITE

By EDMUND CRINNON.

All is in readiness for the big TRIP-UP tour that starts tomorrow morning for the Yosemite Valley. In the caravan which will leave from The TRIBUNE building at 7 a. m. will be cars of all makes and prices, from Twin Six to the husky Chevrolet four-ninety touring cars.

Beginning with the arrival of the 6 a. m. Great Route boat from San Francisco the cars will start lining up in front of the Thirtieth-street entrance of The TRIBUNE building, where they will be checked out without delay so that the last of the caravan will be on the road in ample time to get to Merced before noon.

There will be some thirty or more cars ready for the checking station's signal at the Oakland convention hall, and all along the caravan will be joined by cars from the interior towns and at Merced there will be others waiting for the caravan to arrive.

There will be no doubt that the caravan will be from the Southland and others will be from the Sacramento State Fair.

DRAFT BOARD ROW CAUSES RESIGNATION

One resignation has been asked, while a second one is pending as a result of an investigation ordered by Adjutant General J. J. Berce in to the management of Exemption Board Number One of Berkeley, with headquarters at 3004 Telegraph avenue.

Leonard Bartlett, chairman of the board and well known Berkeley attorney, admitted today that the resignation of H. G. Morrow as a member of the board had been asked by him, for "the good of the board." Whether or not Morrow has sent his resignation to Adjutant General Berce Bartlett declared he did not know.

Charles T. Cox, third member of the board, is declared also ready to send his resignation to Sacramento. Bartlett declared, however, that there had been friction between himself and Cox and stated that the latter was leaving the draft board to enter Y. M. C. A. work.

Girl Enters Contest Representing America

Candidates for members of Court of Democracy. Left to right: MISS NATAKEEN D. BELL, America, and MISS EVELYN PAULL, Britannia.

Here's America again—just elbowing her way in to that Court of Democracy. Just when Portugal and Serbia and Ireland and all of the rest of them were sure they would win. That's the way with the Americans—girls or boys—they just made right in and make things fly.

Miss Evelyn Paull, 470 Orchard street, is nominated to represent Britannia. She is pretty too and one of those girls who just actually gets everything she starts out for. A pretty girl, a Chevrolet car as the goal, and energy the price of the reward—that counts.

Miss Natakeen D. Bell, 525 Fifty-fifth street, would like to win for America too. She is the postmistress at Melrose, and when that village of Melrose gets started—it makes everybody think.

TWO ALAMEDA COUNTY BOYS ON HERO ROLL

Seventeen Californians are listed in today's casualty lists, two from Alameda county. R. Cullen, former Oakland electrical worker, is listed as wounded in action, and Frank A. Coelho, formerly of Mission San Jose and a native of Sunol, is reported as officially missing.

Cullen was employed in several local electrical shops before being called to the colors. He had no relatives here, say union men. Coelho is the son of Mrs. Mary Coelho of Mission San Jose. He was employed in Turlock as a ranch hand before being called to the colors. He is 23 years old and was educated in the Sunol schools. He has a brother, Manuel Coelho, also in the army.

Killed in Action: Joseph F. Andrade, Santa Clara; Louis E. Berry, Daly City; John C. Miller, Los Angeles; Joseph Valenzuela, Watts; all privates.

Wounded: Privates Samuel Glickfield, San Francisco; Felix Wavoni, Napa Springs; Corporal Dan Iopa, Oakland; Private Louis Russell, Lodi; Private L. L. Rankin, San Francisco; Private R. Cullen, Oakland; Private A. Anderson, Turlock; Private Harry Balnbridge, San Francisco.

THIN PEOPLE NEED BITRO-PHOSPHATE

How It Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances.

"Take plain bitro-phosphate" is the advice of physicians to thin, delicate people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people plump, developing arms, neck and bust, replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need

759 WIDOWS ARE GIVEN ASSISTANCE

The Associated Charities of Oakland has handled a total of 2558 cases during the fiscal year closed this month, involving 7752 individuals, of which number 205 were dependent children. There were 1652 new applications for assistance filed during the two months. Those seeking assistance were divided among the religious denominations as follows: Hebrew, 55; Protestant, 1297; Catholic, 1025; other sects, 151. There were 539 single men and women, 759 widows, 101 widowers, 85 divorced persons and 1124 married people given aid.

Grocery orders distributed amounted to \$28,273.48; fuel, \$1053.59; merchandise, \$707.82; glasses, braces, etc., \$509.40.

The office records show 13,349 visits received by the office; 7475 visits made; 6186 letters written; 235 positions secured.

The report of the Associated Charities is submitted by Mrs. Florence Hill, the executive secretary. It is a record of the co-operation of the charitable and city officials and the Blue Bird Bureau of The TRIBUNE.

BANK BUSINESS GAIN FOR WEEK MILLION, HALF

An increase over the corresponding week of last year of \$1,424,756.15, one of the heaviest increases in the history of Oakland's banking, is shown by the Oakland clearing for the week ending yesterday, as announced today by the Oakland Chamber of Commerce.

Oakland's bank clearings for the past week were \$6,024,348.99, as against clearings for the same week of 1917 of \$4,603,592.84. The increase of the week before last over its corresponding clearings of a week ago was \$1,134,532.41.

Lafayette-Marne Celebration in N. Y.

NEW YORK, Sept. 6.—The one hundred and twenty-first anniversary of the birth of the Marquis de Lafayette and the fourth anniversary of the first battle of the Marne were celebrated jointly in New York today by a series of patriotic exercises. The French tri-color was liberally displayed throughout the city.

WOUNDED BANDIT SOUGHT BY POLICE

Search is being made by the police today for a presumably wounded footpad who last night exchanged shots with a patrolman on Broadway street, who was crossing the Webster street bridge when the hold-up occurred.

McCool was with Ray Hammond, a fellow worker in the Bethlehem plant. The footpad stepped out from a dark place as the two men were passing and ordered them to throw up their hands. They complied but while the robber was searching Hammond, McCool pulled out a revolver and fired a shot. The robber fled and as he ran he returned the fire, one of the bullets striking McCool in the left hand. The injury was treated at the Emergency Hospital. An alarm was sent in to the police of Oakland and Alameda and a search was made for the robber. A complete description of the man was obtained by McCool and Hammond and the police are hopeful of apprehending him.

Water Power Bill Is Passed by House

WASHINGTON, Sept. 6.—The first defeat given to an administration measure in the House since the war began has been recorded against the water power bill. The bill was passed 281 to 23, but in a form entirely opposed to President Wilson's wishes. Unless the bill is altered in conference, it is likely to be vetoed.

"SIMON SAYS WIG-WAG."

Charles Mundell will speak at Lincoln Hall, 121 Thirtieth street, Sunday evening at 8 o'clock. His subject will be "Simon Says Wig-Wag." The meeting will be under the auspices of the Socialist party and admission will be free.

more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency as well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by The Oak Drug Co. and most all druggists under a guarantee of satisfaction or money back. By feeding the body directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which accompany excessive thinness, soon disappear, all eyes glow, hair and pale cheeks glow with the bloom of perfect health.

BITRO-PHOSPHATE is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its remarkable fortifying properties. It should not be used by anyone who does not desire to put on flesh.—Advertisement.

FOR CRAMPS IN THE STOMACH.

If you have ever been debilitated with cramps in your stomach, you will be interested in the experience of a particularly Henry Oswego, N. Y., who says: "About four years ago when suffering from cramps in my stomach and bowels, I used Chamberlain's Colic and Diarrhoea Remedy. It is by far the best medicine I have ever used for such troubles, and was cured by Osgood Bros. Drug Stores.—Advertisement.
